Resources in Education ,1997 **Research in Education** ,1973-12 **Postmodern Philosophical Critique and the Pursuit of Knowledge in Higher Education** Roger Mourad,1997-08-30 This work explores the philosophical positions of five postmodern thinkers Lyotard Rorty Schrag Foucault and Derrida to show how their critiques imply that scholars are unduly limited by the belief that inquiry is fundamentally about gaining knowledge of phenomena that are assumed to exist prior to and independent of inquiry and to persist essentially unchanged by inquiry The author argues that there are good reasons why this constraint is both unnecessary and undesirable and he resituates the disciplines within a more flexible foundation that would expand what counts as legitimate inquiry This foundation would emphasize the inquirer as a cause of reality not just an observer who aims to accurately describe and explain phenomena Mourad proposes an intellectual and organizational form which he calls post disciplinary research programs These dynamic programs would be composed of scholars from diverse disciplines who collaborate to juxtapose disparate disciplinary concepts in order to create contexts for post disciplinary inquiries Indigenous Peoples' Cultural Heritage Alexandra Xanthaki,Sanna Valkonen,Leena Heinämäki,Piia Kristiina Nuorgam,2017-10-17 Indigenous rights to heritage have only recently become the subject of academic scholarship This collection aims to fill that gap by offering the fruits of a unique conference on this topic organised by the University of Lapland with the help of the Office of the High Commissioner for Human Rights The conference made clear that important information on Indigenous cultural heritage has remained unexplored or has not been adequately linked with specific actors such as WIPO or specific issues such as free prior and informed consent Indigenous leaders explained the impact that disrespect of their cultural heritage has had on their identity well being and development Experts in social sciences explained the intricacies of indigenous cultural heritage Human rights scholars talked about the inability of current international law to fully address the injustices towards indigenous communities Representatives of International organisations discussed new positive developments This wealth of experiences materials ideas and knowledge is contained in this important volume **Light from the Christian East** James R. Library,1971 **Lessons for the Social Studies Classroom** M. Lazarus, S. Cohen, K. Lambert, R. E,2013-03-12 The idea for this book came while I was observing a student teacher and a master teacher I realized that most student teachers while in training do not have the opportunity to think creatively about their lessons I also noticed that teachers new to the field of teaching suffer the same fate they are too busy trying to survive the day and are not

sure how to plan and organize their teaching Lesson plans are one of the most important tools for a teacher and more important for the novice teacher I believe that during student teaching or during their undergraduate years if students were equipped with this book their first year teaching will not look so first year Imagine an undergraduate class filled with soon to be Social Studies teachers discussing these selected lesson plans improving upon them and making them their own Most first year teachers over teach or under teach and both types still miss the marks on the standardized test These lesson plans will give the new teacher a place to begin
