Gesture Drawing – a work of art defined by rapid drawing style. Usually looks hurried and “messy.” The point of a gesture drawing is to capture the “gesture” of a moment. Gesture drawings are drawn very quickly and usually only take about 30 seconds to 5 minutes.

Visual Rhythm – visual rhythm is rhythm you receive through your eyes rather than your ears. Visual rhythm is created by repeated similar shapes. Visual rhythm can sometimes be shown by repeated patterns and/or repeated designs; this is called “visual beat.”

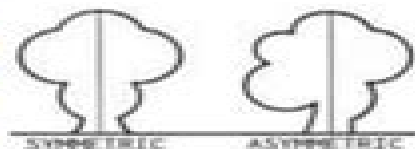

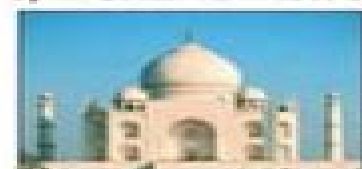

both images are examples of Visual Rhythm

Movement – (in Art) visual movement is used by artists to direct viewers through their work, often to a focal area or a focal point. Such movements can be directed along lines, edges, shapes, and colors with the work. It can also mean when an artist uses design to produce the look of action in an artwork.

movement is created by all the curved lines that draw the viewer into following the arc of the big wave and onto the boats below

Balance – (in Art) is arranging elements so that no one part of a work overpowers or seems heavier than any other part. There are two major types of balance: symmetrical and asymmetrical. Humans often find symmetrical balance to be the most pleasing and calming.

Regenerative Medicine Corey W Hunter, Timothy T. Davis, Michael J. DePalma, 2022-08-30 This book explores the rapidly growing subspecialty of regenerative medicine in pain management. It provides concise guidelines and instruction for healthcare providers interested in implementing this novel therapy. The book contains three sections and begins with a thorough introduction to the field. Additionally, section one examines various therapies such as stem cell collection, allograft therapies, and bone marrow aspirations. Section two then delves into the medical diagnosis and procedural guidance methods, including ultrasound imaging, discography, local anesthetics, and anticoagulation medications. Following this, section three concludes the book with numerous discussions on standardized treatment paradigms. A unique first of its kind book, Regenerative Medicine seeks to inspire medical practitioners to integrate this subspecialty into pain management therapies and treatments.

Single-Session Therapy by Walk-In or Appointment Michael F. Hoyt, Monte Bobele, Arnold Slive, Jeff Young, Moshe Talmon, 2018-05-11 Single Session Therapy by Walk in or Appointment is based on the idea that one session is often all a client will need and choose to attend. The option of a single session responds to the growing need for greater accessibility and responsiveness of mental health services. With considerable data supporting both the demand for and the effectiveness of walk in and by appointment single sessions, the field is expanding rapidly. This book includes many clinical examples and cultural nuances as well as discussions of recent research, training and supervision, and implementation and administrative arrangements. This is an essential title for clinicians, program developers, and policy makers interested in providing the effective, client responsive, economic option of one at a time single session therapy on a walk in or by appointment basis.
