

What Can Arbitrators Do to Address These Issues?

(continued)

- Schedule minimum 8-hour days and 4-day weeks
- Consider innovative techniques such as allowing counsel to present direct testimony and have witnesses subjected only to cross, perhaps in a group if the issues warrant.
- *Just as the judiciary and Bar have responded to criticisms of litigation, so must the users, practitioners and sponsors of arbitration respond to the issues facing arbitration.*
 - Rocket dockets
 - Creation of complex case divisions in many courts
 - 2007 update to 1998 Civil Trial Practice Standards of the ABA Litigation Section.

What Counsel Arbitration Can Must:

Counsel as Client's First Enemy in Arbitration? Ugo Draetta, 2014-06-01 COUNSEL AS CLIENT'S FIRST ENEMY IN ARBITRATION is not a legal book nor a book dealing with ethics of the arbitration. This book is about cases where counsel occasionally abuse or misuse their right to defend their clients in international arbitrations with potential adverse effects on the latter. This is a subject on which, with some notable exception, not much has been said. By contrast, literature abounds about the duty of the arbitrators and the consequences for them if they do not observe such duties. In sum, this book is aimed at discussing in the most pragmatic way certain behaviors by counsel occasionally encountered in the international arbitration practice that the author considers pathological, not physiological. The discussion is supported by real life anecdotes appropriately redacted and sanitized. Given the author's years of experience and wealth of knowledge, this publication is a valuable resource to anyone that is serious about arbitration.

Guide to Energy Arbitrations J William Rowley QC, 2017-06-21 Global Arbitration Review's The Guide to Energy Arbitrations is an essential desk top reference tool for energy companies, their advisers and arbitrators, bringing together a number of pre-eminent authors and pulling together the latest and best approaches to the myriad issues confronted in today's energy disputes. J William Rowley QC of 20 Essex St acts as General Editor; editors are Doak Bishop of King. The Guide to Energy Arbitration is a very useful and unique contribution to the literature in the area; it assembles the views and insights of leading counsel and arbitrators on many of the key issues and trends in the energy arbitration world. It should be a valuable guide to energy companies and their internal and external counsel, in addition to being of interest to commercial and litigation lawyers generally. College of Commercial Arbitrators Guide to Best Practices in Commercial Arbitration - Third Edition James M. Gaitis, Carl F. Ingwalson, Jr., Vivien B. Shelanski, 2014-01-01 This third edition of The College of Commercial Arbitrators Guide to Best Practices in Commercial Arbitration has been substantially expanded, not only to ensure that it is up to date, but also to incorporate several new chapters on diverse subjects including intratribunal relations, arbitrators' fees, eDiscovery and hybrid arbitration processes. Summary of New Material: Twice as long as the second edition. Substantial revision and expansion of existing chapters. Four new chapters: Arbitrators' Fees, Expenses, eDiscovery, Intratribunal Relations, Hybrid Arbitration Proceedings. Updated to take into account evolving case law and to address newly emerging issues relating to the management of commercial arbitrations. Comparative tables regarding certain aspects of major international rules and international arbitration institution policies. Revised to take into account The new 2013 CPR Administered Arbitration Rules, The 2013 revisions to the AAA Commercial Rules, Various protocols and guidelines relating to domestic commercial arbitration, The 2011 revisions to the JAMS International Rules, The 2012 revisions to the ICDR Articles, The 2010 revisions to the UNCITRAL Rules, The 2013 IBA Guidelines on Party Representation in International Arbitration, The 2010 revisions to the IBA Rules on the Taking of Evidence in International Arbitration, Various protocols and guidelines.

relating to domestic commercial arbitration The aim of the Guide is to identify best practices that arbitrators can employ to provide users of arbitration with the highest possible standards of economy and fairness in the disposition of business disputes This third edition of the Guide refines the guidance contained in the first and second editions to take into account developing case law revised institutional rules advancements in arbitration techniques and thinking and also addresses newly evolving issues such as electronic discovery There are significant differences in the ways in which arbitrations are conducted in different substantive fields of commerce and among different arbitrators in the same field Techniques that are appropriate and useful in one case may be quite unsuited to another For this reason it is not possible to prescribe a single set of best practices that commercial arbitrators should invariably follow in every case Rather this Guide attempts to identify the principal issues that typically arise in each successive stage of an arbitration and to explain the pros and cons of various preferred ways of handling each issue From this perspective the best practice for an arbitrator is to carefully consider the merits of alternative techniques available for dealing with a particular issue and to then select the technique best suited to the situation In addition the Guide attempts to identify the full array of practices available for use in complex arbitrations which can be adapted and streamlined for simpler cases Formed in 2001 the College of Commercial Arbitrators is a non profit organization composed of prominent experienced commercial arbitrators who believe that a national association of commercial arbitrators can provide a meaningful contribution to the profession to the public and to the businesses and lawyers who depend on arbitration as a primary means of dispute resolution Its mission includes promoting professionalism and high ethical practice in commercial arbitration adopting and maintaining standards of conduct providing peer training and professional development and developing and publishing best practices materials This work is the College s principal vehicle for fulfilling several aspects of its mission Many seasoned and knowledgeable practitioners generously contributed their time and insights to the creation of this Guide

Disputes Thomas D. Halket,2012-05-01 The Arbitration of International Intellectual Property Disputes which is designed not only for arbitration counsel and arbitrators but also for in house counsel and transactional lawyers provides a thorough guide to the use of arbitration to resolve these disputes Both practical as well as scholarly it starts by exploring how and why arbitration can provide the best way to resolve these disputes and how to draft an effective arbitration provision It then covers the principal unique issues which can arise in the arbitration itself from choosing the tribunal through confidentiality discovery validity determinations choice of law provisional and final remedies and enforceability With the world more and more dependent upon technology of all types the continued and growing importance of intellectual property cannot be understated There has been and will continue to be an accompanying explosion in the number and complexity of transactions in which intellectual property is a critical if not the critical element Many of these transactions cross national boundaries as do the disputes which inevitably arise from them But international intellectual property disputes present complexities not encountered in either intellectual property disputes which are confined to one country or other international commercial disputes The Arbitration of International Intellectual Property Disputes will serve as a handy reference and guide for navigating through the complex maze of intellectual property and arbitration *The Law of Nisi Prius, Evidence in Civil Actions, and Arbitrations and Awards: with an Appendix, Etc* Archibald John STEPHENS (Q.C.),1842 Decisions and

Orders of the National Labor Relations Board United States. National Labor Relations Board,1995 *Guide to Damages in International Arbitration* John A Trenor,2018-01-18 Have you ever been frustrated that arbitration folk aren't more numerate? The *Guide to Damages in International Arbitration* is a desktop reference work for those who'd like greater confidence when dealing with the numbers. This second edition builds upon last year's by updating and adding several new chapters on the function and role of damages experts, the applicable valuation approach, country risk premium and damages in gas and electricity arbitrations. This edition covers all aspects of damages from the legal principles applicable to the main valuation techniques and their mechanics to industry specific questions and topics such as tax and currency. It is designed to help all participants in the international arbitration community to discuss damages issues more effectively and communicate them better to tribunals with the aim of producing better awards. The book is split into four parts: Part I Legal Principles Applicable to the Award of Damages; Part II Procedural Issues and the Use of Damages Experts; Part III Approaches and Methods for the Assessment and Quantification of Damages; Part IV Industry Specific Damages Issues. *The Swedish Arbitration Act of 1999 Five Years on* Lars Heuman, Sigvard Jarvin,2006-04-01 In 2004 Sweden's Arbitration Act of 1999 was five years old. Inspired by UNCITRAL's Model Law while perpetuating features of the 1929 Act, it introduced many new concepts such as establishing rules to determine the law applicable to the agreement to arbitrate, authorizing the arbitrators to decide the existence of facts and to fill gaps in contracts, making competition law issues arbitrable, affording the respondent the right to have the dispute resolved if the claimant withdraws its claim, authorizing truncated tribunals where an arbitrator obstructs the work of the tribunal. The new Act further gives arbitrators power to decide interim measures of protection and accepts that foreign parties waive in advance the possibility to set aside the arbitral award. In order to learn about the experience of Swedish and foreign practitioners, arbitrators and judges during the five years since the Act was adopted, the Stockholm Arbitration Report and the Institute of Arbitration Law at the University of Stockholm organized a symposium on 7 and 8 October 2004. The symposium was arranged in co-operation with the Arbitration Institute of the Stockholm Chamber of Commerce, SCC, the China International Economic and Trade Arbitration Commission (CIETAC), the Hong Kong International Arbitration Centre (HKIAC), the ICC International Court of Arbitration, the International Centre for Dispute Resolution (ICDR), the International Commercial Arbitration Court at the CCI of the Russian Federation, JAMS, the London Court of International Arbitration (LCIA), *Revue de l'arbitrage*, the Swedish Bar Association and UNCITRAL. This book contains the papers presented to the six working sessions and the full discussions that took place. **Papers Relating to the Treaty of Washington: Geneva arbitration**, 1872 **The Conduct of International Arbitration Proceedings** Yves Derains,2024-12-09 This book provides an in-depth guide to conducting international arbitration proceedings efficiently and effectively, drawing on Yves Derains' specialist experience in over 500 proceedings. It explores the necessary qualities of successful international arbitrators and covers the various phases of arbitration proceedings, from the appointment of the arbitrators to the issuing of
