## **Preempting Dissent The Politics Of An Inevitable Future:**

Preempting Dissent Greg Elmer, Andy Opel, 2008 The legacy of the Bush administration and its War on Terror includes a new logic of surveillance suppressing public dissent and mobilizing both fear and faith In this accessible book Elmer and Opel show that this new logic stretches well beyond the realm of airport security and international relations into everyday police techniques including the use of Tasers the deployment of stealth crowd control the zoning of protestors and the suppression of public dissent Drawing on social theories and media analyses this book reveals the underlying logic of preemption whereby threats must be eliminated before they materialize By addressing the implications of this new logic Elmer and Opel lay the groundwork for more effective resistance The Aesthetics and Politics of the Online Self Donatella

Della Ratta, Geert Lovink, Teresa Numerico, Peter Sarraam, 2022-01-01 This volume investigates our dissonant and exuberant existences online As social media users we know we are under surveillance yet we continue to click like love and share ourselves online as if nothing was So how do we overcome the current online identity regime Can we overthrow the rule of Narcissus and destroy the planetary middle class subject In this catalogue of strategies the reader will find stories on hacker groups gaming platforms in the occupied territories art objects selfies augmented reality Gen Z autoethnographies love and life The authors of this anthology believe we cannot simply put vanity aside and a rational analysis of platform capitalism is not going to convince the youngs on TikTok nor liberate us from Zuckerbergian indentured servitude Do we really need to wade through the subjective mud and learn more about online aesthetics The answer is yes Writing by Wendy Chun Franco Berardi Bifo Julia Preisker Katherine Behar Rebecca Stein Fabio Cristiano Emilio Distretti Natalie Bookchin Ana Peraica Mitra Azar Donatella Della Ratta Gabriella Coleman Marco Deseriis Alberto Micali Daniel de Zeeuw Giovanni Boccia Artieri Jodi Dean **The Oxford Handbook of Mobile Communication and Society** Richard Seyler Ling, Leopoldina

**Studies** David Lyon,Kirstie Ball,Kevin D. Haggerty,2012 Surveillance is both globalized in cooperative schemes such as sharing biometric data and localized in the daily minutiae of social life This innovative handbook explores the empirical theoretical and ethical issues around surveillance and its use in daily life Surveillance Futures Emmeline Taylor,Tonya Rooney,2016-08-05 From birth to adulthood children now find themselves navigating a network of surveillance devices that attempt to identify quantify sort and track their thoughts movements and actions This book is the first collection to focus exclusively on technological surveillance and young people Organised around three key spheres of children s day to day life schooling the self and social lives this book chronicles the increasing surveillance that children of all ages are subject to Numerous surveillance apparatus and tools are examined including but not limited to mobile phones surveillance cameras online monitoring GPS and RFID tracking and big data analytics In addition to chronicling the steady rise of such surveillance practices the chapters in this volume identify and problematise the consequences of technological surveillance from a range of multidisciplinary perspectives Bringing together leading scholars working across diverse fields including sociology education health criminology anthropology philosophy media and information technology the collection highlights the significant socio political and ethical implications of technological surveillance throughout childhood and youth

*Identity Politics and the New Genetics* Katharina Schramm,David Skinner,Richard Rottenburg,2012 Racial and ethnic categories have appeared in recent scientific work in novel ways and in relation to a variety of disciplines medicine forensics population genetics and also developments in popular genealogy Once again biology is foregrounded in the discussion of human identity Of particular importance is the preoccupation with origins and personal discovery and the increasing use of racial and ethnic categories in social policy This new genetic knowledge expressed in technology and practice has the potential to disrupt how race and ethnicity are debated managed and lived As such this volume investigates the ways in which existing social categories are both maintained and transformed at the intersection of the natural sciences and the cultural politics The contributors include medical researchers anthropologists historians of science and sociologists of race relations together they explore the new and challenging landscape where biology becomes the stuff of identity Abolishing

Surveillance Chris Robé, 2023-09-05 The Department of Justice sought information on all who visited the DisruptJ20.org website for Donald Trump's inauguration. Undercover agents infiltrate BlackLivesMatter protests. Police routinely command bystanders to stop filming them by falsely claiming it is a crime. Agricultural states like Iowa, Idaho, Utah, and Wyoming enact laws that criminalize the filming of factory farm cruelty while allowing other human and animal suffering to continue unabated. Dissent and poverty are increasingly criminalized by the state as precarity grows. *Abolishing Surveillance* offers the first in-depth study of how various communities and activist organizations are resisting such efforts by integrating digital media activism into their actions against state surveillance and repression and for a better world. The book focuses on a wide array of movements within the United States such as Latinx copwatching groups in New York City, Muslim and Arab American communities in Minneapolis, undercover animal rights activists, and counter-summit protesters to explore the ways in which government surveillance and repression impacts them and more importantly their different but related online and offline tactics and strategies employed for self-determination and liberation. Digital media production becomes a core element in such organizing as cell phones and other forms of handheld technology become more ubiquitous. Yet such uses of technology can only be successfully employed when built upon strong grassroots organizing that has always been essential for social movements to take root. Neither idealizing nor disparaging the digital media activism explored within its pages, *Abolishing Surveillance* analyzes the successes and failures that accompany each case study. The book explores the historically shifting terrain since the 1980s to the present of how historically disenfranchised communities, activist organizations, and repressive state institutions battle over the uses of digital technology and media-making practices as civil liberties, community autonomy, and the very lives of people and other than human animals hang in the balance. Ready to Wear Isabel Pedersen, 2013-02-03 *Ready to Wear: A Rhetoric of Wearable Computers and Reality Shifting Media* explores how and to what ends wearable inventions and technologies augment or remix reality as well as the claims used to promote them. As computer components shrink and our mobile culture normalizes, we wear computers on the body to create immersive experiences. **Transgression 2.0** Ted Gornelios, David J. Gunkel, 2011-11-24 Addresses the multifaceted aspects of transgression in the digital age from piracy to audio mashups. Locating Migrating Media Greg Elmer, Charles H. Davis, Janine Marchessault, John McCullough, 2012-07-10 *Locating Migrating Media* details the extent to which media productions both televisual and cinematic have sought out new and cheaper shot locations, creative staff, and financing around the world. The book contributes to debates about media globalization, focusing on the local impact of new sites of media production. The book's chapters also question the role that film and television industries and local and regional governments play in broader economic development and tax incentive schemes. While metaphors of transportation, mobility, fluidity, and change continue to serve as key concepts and frames for understanding contemporary media industries, products, and processes, the essays in this book look to local spaces, neighborhoods, cultural workers, and stories to ground the global that is

to interrogate the effect of media globalization before during and after film and television shooting and onsite production By locating migrating media these chapters seek to determine the political economic and cultural conditions that produce contemporary forms of televisual and cinematic storytelling and how these processes affect the inhabitants the look and the very geopolitical future of local communities neighborhoods cities and regions The focus on relocated screen production highlights the act of film and television making both aesthetically and economically To locate migrating media is therefore to determine the political and cultural economies of globalized sets and stages be they in new studios or on city streets or perhaps most importantly in our imaginations

*The Democratic Public Sphere* Christina Fiig, Jørn Loftager, Jan Lohmann Stephensen, Henrik Kaare Nielsen, Mads P. Sørensen, Thomas Olesen, 2016-08-01 Even in well established democratic societies the political system currently faces a crisis of civic engagement and participation Increasingly this lack of engagement and the accompanying erosion of institutional legitimacy result in antidemocratic populist currents gaining ground It is an important challenge for both the humanities and the social sciences to analyse this crisis and discuss possible answers that may contribute to strengthening the position of the democratic public sphere in the political process thus emphasising the crucial role of civic engagement and participation in renewing democracy The articles in this volume seek the sources for such democratic innovations in a variety of existing less formalised practices and experiences in public space in citizens forums and other concrete arenas for democratic debate and participation in the media in general including social media and other digital platforms in social movements and in artistic interventions in the public sphere The volume presents selected and edited papers and keynote lectures from the international research conference The Democratic Public Sphere Current Challenges and Prospects which was held at Aarhus University on November 5-7 2015 It includes contributions by keynote speakers Mark E Warren Nick Couldry Donatella della Porta and Stephen Duncombe

*Research Themes for Events* Rebecca Finkel, David McGillivray, Gayle McPherson, Peter Robinson, 2013-10-25 This book was conceived to fill a gap in the study of events and festivity with a research oriented events management text The book focuses on exposing underpinning theoretical frameworks and draws upon international case studies to help explain various event phenomena It intentionally considers events from a research perspective generating insights into the principal methodological approaches employed to produce empirical data while drawing attention to the future research needs of the field of event management The book begins with an exploration of the social issues impacts and developments in events research it then moves on to analysing economic and management aspects surrounding research into the events industry addresses issues of technology and tools and concludes with more political and policy oriented chapters to highlight research into the main debates in the public sector and sphere The book has 15 chapters and a subject index

*Appified* Jeremy Wade Morris, Sarah Murray, 2018-10-23 Snapchat WhatsApp Ashley Madison Fitbit Tinder Periscope How do we make sense of how apps like these and thousands of others have embedded themselves into our daily routines permeating the background of ordinary life

and standing at the ready to be used on our smartphones and tablets When we look at any single app it's hard to imagine how such a small piece of software could be particularly notable But if we look at a collection of them we see a bigger picture that reveals how the quotidian activities apps encompass are far from banal connecting with friends and strangers and enemies sharing memories and personally identifying information making art and trash navigating spaces and reshaping places in the process While the sheer number of apps is overwhelming as are the range of activities they address each one offers an opportunity for us to seek out meaning in the mundane Appified is the first scholarly volume to examine individual apps within the wider historical and cultural context of media and cultural studies scholarship attuned to issues of politics and power identity and the everyday

Child Data Citizen Veronica Barassi, 2020-12-22 An examination of the datafication of family life in particular the construction of our children into data subjects Our families are being turned into data as the digital traces we leave are shared sold and commodified Children are datafied even before birth with pregnancy apps and social media postings and then tracked through babyhood with learning apps smart home devices and medical records If we want to understand the emergence of the datafied citizen Veronica Barassi argues we should look at the first generation of datafied natives our children In *Child Data Citizen* she examines the construction of children into data subjects describing how their personal information is collected archived sold and aggregated into unique profiles that can follow them across a lifetime

**Activist Media** Gino Canella, 2022-05-23 Drawing from his experiences as a documentary filmmaker with Black Lives Matter 5280 and Service Employees International Union SEIU Local 105 in Denver Colorado Gino Canella details how collaborative media projects can help activists mobilize supporters amplify their campaigns for social justice and foster solidarity among grassroots organizers

*When Technocultures Collide* Gary Genosko, 2013-11-23 When *Technocultures Collide* provides rich and diverse studies of collision courses between technologically inspired subcultures and the corporate and governmental entities they seek to undermine The adventures and exploits of computer hackers phone phreaks urban explorers calculator and computer collectors BlackBerry users whistle blowers Yuppies zesters roulette cheats chess geeks and a range of losers and tinkerers feature prominently in this volume Gary Genosko analyzes these practices for their remarkable diversity and their innovation and leaps of imagination He assesses the results of a number of operations including the Canadian stories of Mafiaboy Jeff Chapman of Infiltration and BlackBerry users The author provides critical accounts of highly specialized attributes such as the prospects of deterritorialized computer mice and big toe computing the role of electrical grid hacks in urban technopolitics and whether info addiction and depression contribute to tactical resistance Beyond resistance however the goal of this work is to find examples of technocultural autonomy in the minor and marginal cultural productions of small cultures ethico poetic diversions and sustainable withdrawals with genuine therapeutic potential to surpass accumulation debt and competition The dangers and joys of these struggles for autonomy are underlined in studies of RIM's BlackBerry and Julian Assange's WikiLeaks website

*Cloud Time* Dean Lockwood, Rob

Coley,2012-04-27 The Cloud hailed as a new digital commons a utopia of collaborative expression and constant connection actually constitutes a strategy of vitalist post hegemonic power which moves to dominate immanently and intensively organizing our affective political involvements instituting new modes of enclosure and crucially colonizing the future through a new temporality of control The virtual is often claimed as a realm of invention through which capitalism might be cracked but it is precisely here that power now thrives Cloud time in service of security and profit assumes all is knowable We bear witness to the collapse of both past and future virtuals into a present dedicated to the exploitation of the spectres of both

*Research Handbook on Cyberwarfare* Tim Stevens,Joe Devanny,2024-07-05 This Research Handbook provides a rigorous analysis of cyberwarfare a widely misunderstood field of contemporary conflict and geopolitical competition Gathering insights from leading scholars and practitioners it examines the actors involved in cyberwarfare their objectives and strategies and scrutinises the impact of cyberwarfare in a world dependent on connectivity Taming an Uncertain Future

Liam P.D. Stockdale,2015-12-16 A popular cliché in contemporary public discourse holds that we live in a time of increasing uncertainty that the next catastrophe is perpetually imminent and yet increasingly beyond our capacity to foresee The future in short is becoming much more difficult to control One consequence of this increasingly widespread understanding of the future is that societies have turned to anticipatory governance strategies based on such concepts as risk management the precautionary principle and pre-emption to manage human affairs This book takes an in depth look at this trend by using the example of the pre-emptive security strategies deployed in the post 9 11 War on Terror to develop a critical understanding of how the proliferation of such anticipatory governance strategies affects the way political power is organized and exercised The book also makes a wider case for taking issues of time and the future more seriously in the study of contemporary global politics in particular and the social world more generally
