Classroom Assessment Scoring System® (CLASS(tm)) Dimensions Guide, Infant Teachstone Training LLC, 2014-04-23

Whether you are new to the CLASS framework or honing your skills this booklet will ground you in the domains and dimensions that make up the CLASS Infant framework. In its pages you will explore CLASS Infant domains and dimensions. Find clear explanations of effective interactions. Learn practical strategies for improving interactions. This dimensions guide is great for teachers and anyone interested in understanding why classroom interactions matter and how they can be improved with the CLASS tool. This guide is used with the bestselling CLASS observational tool that measures interactions between children and teachers, a primary ingredient of high quality early educational experiences. With versions for infant and toddler programs and pre-K and K-3 classrooms, the reliable and valid CLASS tool establishes an accurate picture of the classroom through brief repeated observation and scoring cycles and effectively pinpoints areas for improvement. Learn more about the whole CLASS system. See which domain of school readiness in the Head Start Child Development and Early Learning Framework this tool addresses.

The Oxford Handbook of Infant, Toddler, and Preschool Mental Health Assessment, Rebecca DelCarmen-Wiggins, Alice S. Carter, 2019. The Oxford Handbook of Infant Toddler and Preschool Mental Health Assessment, Second Edition, brings together leading clinical and developmental researchers to provide empirically based recommendations for assessment of social, emotional, and behavior problems and disorders in the earliest years. The second edition is fully updated and revised according to an upsurge of research in the field of assessment, especially with regard to infants and children.

A Guide to Analyzing and Interpreting ECERS-3 Data, Richard M. Clifford, Noreen Yazejian, Wonkyung Jang, Dari Jigjidsuren, 2021. Early childhood is a crucial stage in a child's life, and aspects of the environment in the physical, social, emotional, cognitive, and health and safety domains all play important roles in shaping children's development during these early years. Having a valid and reliable measure of the quality of these aspects of children's care settings is critical. The Early Childhood Environment Rating Scale (ECERS-3) is the leading research-based instrument for examining these influential global factors that directly impact children in early childhood environments. In this new guide, readers will find an in-depth description of both the conceptual model underlying the ECERS-3 and innovative ways of analyzing data for a fuller understanding of what can be done with the scale and why it is integral to the evaluation of early care and education. The authors analyze a large database of classroom observations to help ECERS-3 users better understand, interpret, and utilize their own findings. Readers will also see how components of their ECERS-3 data relate to one another within and across subscales and within the scale as a whole. **A Guide to Analyzing and Interpreting ECERS-3 Data** will assist program directors, agency administrators, pre-K/K teaching coaches, mentors, school principals, researchers, and others who use the ECERS-3 to more successfully document, interpret, and analyze the quality of essential influential factors in an early learning setting. This resource will help guide program improvement initiatives with insight into what is needed.

for children's development and learning Book Features Provides a framework for thinking about how early childhood care and education learning environments fit into the larger picture of influences on children's development Presents a theory of change that combines understanding how children learn and develop with how early education and care affect long term outcomes Analyzes what ECERS 3 data looks like for a large sample of classrooms and by different child and teacher characteristics

Stakeholders' Perspectives on Assessment and Improvement of Quality in Early Childhood Education and Care: A World-Wide Kaleidoscope Antonia Elisabeth Enikoe Baumeister, Hui Li, Linda Joan Harrison, 2024-08-29 The key aims of early childhood education and care ECEC are to offer children from all social backgrounds a good start in their lives to support parenting as well as families workforce participation and thereby to sustainably strengthen the national economy over current and future generations High quality ECEC has been shown to improve child outcomes and be a buffer against developmental risk factors For these reasons governments ECEC providers and researchers are placing an increasing focus on the frameworks and systems that underpin quality as well as the measures that assess quality At the same time however research on ECEC as a multidisciplinary endeavor has shown that the aims and benefits of high quality ECEC can only be reached when all stakeholders needs are acknowledged and sufficiently met For example recent evidence suggests that the acceptability and social validity of quality assessment and improvement methods are contested among some stakeholders and thus the sustainability of these quality efforts may be in doubt New challenges also include the ever changing nature and circumstances affecting ECEC stakeholders for example the greater flows of refugee families and the impact of the Covid 19

pandemic This Frontiers Research Topic will contribute to an updated knowledge base in order to inform governments providers and the scientific community about best practices and new solutions for conceptualizing measuring and improving ECEC quality The aim of the proposed Research Topic is to generate a worldwide kaleidoscope of research studies that explore and discuss models for gathering the perspectives of multiple stakeholders and considering the meaningfulness of stakeholder views for conceptualizing assessing and improving quality in ECEC We believe that greater attention needs to be given to the diversity of stakeholders who are invested in ECEC including government regulatory authorities service providers educators families communities and children We also believe that wide ranging stakeholder input will generate innovative methods for assessing and improving quality that keep pace with our rapidly changing information society Two further foci are set on ECEC practices 1 that support participation diversity and inclusion of all children and families and 2 that are suitable for developing countries and diverse populations within countries In this the focus is not only on best practices but also on the limitations of practices In soliciting research articles on ECEC stakeholder perspectives we describe stakeholders as inclusive of government non government regulatory agencies service providers teachers and caregivers families communities and children Themes of interest include but are not limited to Assessment of quality in ECEC including self assessment approaches The design of and use of quality frameworks in ECEC Effects of quality and of quality improvement on children and families Drivers and indicators of quality improvement Acceptance and sustainability of quality efforts among ECEC stakeholders Policy expectations of quality rating and improvement systems e g funding policy The role of teacher and caregiver professionalization All types of center based and home based ECEC We are interested both in quantitative and qualitative research designs as well as in mixed methods research Cross sectional longitudinal quasi experimental and case study designs are welcome The following article types are welcome original research empirical studies systematic reviews community case studies policy briefs articles and brief research reports [International Handbook of Early Childhood Education](#) Marilyn Fleer,Bert van Oers,2017-10-10 This international handbook gives a comprehensive overview of findings from longstanding and contemporary research theory and practices in early childhood education in the Northern and Southern hemispheres The first volume of the handbook addresses theory methodology and the research activities and research needs of particular regions The second volume examines in detail innovations and longstanding programs curriculum and assessment and conceptions and research into child family and communities The two volumes of this handbook address the current theory methodologies and research needs of specific countries and provide insight into existing global similarities in early childhood practices By paying special attention to what is happening in the larger world contexts the volumes provide a representative overview of early childhood education practices and research and redress the current North South imbalance of published work on the subject **Psychoeducational Assessment of Preschool Children** Vincent C.
