Tales of Berlin in American Literature up to the 21st Century Joshua Parker, 2016-03-17 Of all European cities Americans today are perhaps most curious about Berlin whose position in the American imagination is an essential component of nineteenth century postwar and contemporary transatlantic imagology Over various periods Berlin has been a tenuous space for American claims to cultural heritage and to real geographic space in Europe symbolizing the ultimate evil and the power of redemption This volume offers a comprehensive examination of the city's image in American literature from 1840 to the present Tracing both a history of Berlin and of American culture through the ways the city has been narrated across three centuries by some 100 authors through 145 novels short stories plays and poems *Tales of Berlin* presents a composite landscape not only of the German capital but of shifting subtexts in American society which have contextualized its meaning for Americans in the past and continue to do so today     Books and Pamphlets, Including Serials and Contributions to Periodicals Library of Congress. *Challenging Boundaries* Joyce W. Warren, Margaret Dickie, 2012-03-15 What if the American literary canon were expanded to consistently represent women writers who do not always fit easily into genres and periods established on the basis of men's writings How would the study of American literature benefit from this long needed revision This timely collection of essays by fourteen women writers breaks new ground in American literary study Not content to rediscover and awkwardly fit female writers into the white male scheme of anthologies and college courses editors Margaret Dickie and Joyce W Warren question the current boundaries of literary periods advocating a revised literary canon The essays consider a wide range of American women writers including Mary Rowlandson Margaret Fuller Harriet Beecher Stowe Emily Dickinson

Frances Harper Edith Wharton Gertrude Stein Amy Lowell and Adrienne Rich discussing how the present classification of these writers by periods affects our reading of their work Beyond the focus of feminist challenges to American literary periodization this volume also studies issues of a need for literary reforms considering differences in race ethnicity class and sexuality The essays are valuable and informative as individual critical studies of specific writers and their works Challenging Boundaries presents intelligent original well written and practical arguments in support of long awaited changes in American literary scholarship and is a milestone of feminist literary study *Prentice Hall Literature* ,1994 Quarterly Review of the Michigan Alumnus ,1953 Includes section Some Michigan books *International Journal of Applied Linguistics and English Literature (IJALEL: Vol. 3, No.1)*, 2014 Editor,2013-12-30 International Journal of Applied Linguistics and English Literature IJALEL is a peer reviewed journal established in Australia Authors are encouraged to submit complete unpublished and original works which are not under review in any other journal The scopes of the journal include but not limited to the following topic areas Applied Linguistics Linguistics and English Literature The journal is published in both printed and online versions The online version is free access and downloadable *The Philosophy of Neo-Noir* Mark T. Conard,2007-01-05 A collection of essays exploring the philosophical elements present in Neo Noir films Film noir is a classic genre characterized by visual elements such as tilted camera angles skewed scene compositions and an interplay between darkness and light Common motifs include crime and punishment the upheaval of traditional moral values and a pessimistic stance on the meaning of life and on the place of humankind in the universe Spanning the 1940s and 1950s the classic film noir era saw the release of many of Hollywood s best loved studies of shady characters and shadowy underworlds including Double Indemnity The Big Sleep Touch of Evil and The Maltese Falcon Neo noir is a somewhat loosely defined genre of films produced after the classic noir era that display the visual or thematic hallmarks of the noir sensibility The essays collected in *The Philosophy of Neo Noir* explore the philosophical implications of neo noir touchstones such as Blade Runner Chinatown Reservoir Dogs Memento and the films of the Coen brothers Through the lens of philosophy Mark T Conard and the contributors examine previously obscure layers of meaning in these challenging films The contributors also consider these neo noir films as a means of addressing philosophical questions about guilt redemption the essence of human nature and problems of knowledge memory and identity In the neo noir universe the lines between right and wrong and good and evil are blurred and the detective and the criminal frequently mirror each other s most debilitating personality traits The neo noir detective more antihero than hero is frequently a morally compromised and spiritually shaken individual whose pursuit of a criminal masks the search for lost or unattainable aspects of the self Conard argues that the films discussed in *The Philosophy of Neo Noir* convey ambiguity disillusionment and disorientation more effectively than even the most iconic films of the classic noir era Able to self consciously draw upon noir conventions and simultaneously subvert them neo noir directors push beyond the earlier genre s limitations and open new paths of cinematic and philosophical exploration Praise

for The Philosophy of Neo Noir Conard can feel confident that these terrific essays will be of interest to film enthusiasts particularly fans of Neo Noir Additionally for those who come to this volume with some background in philosophy not only will they be pleased to find fellow philosophers offering accessible introductions to philosophical thinkers and ideas but they are sure to increase their understanding of noir Neo Noir and many familiar film titles as well as more deeply appreciate the ways in which popular film and television offer wide and varied avenues to doing good philosophy Kimberly A Blessing co editor of Movies and the Meaning of Life Taking up such latter day classics as Chinatown Blade Runner and Memento this volume explores how contemporary filmmakers have taken up the challenge of classic film noir and broadened the genre In this analysis even the pastel shades of South Beach take on a dark coloring in Miami Vice These probing essays locate what is neo in Neo Noir and thus define it as a postmodern genre Paul Cantor author of Gilligan Unbound Pop Culture in the Age of Globalization This collection will serve as a terrific interdisciplinary guide through the chaotic intriguing world of

postmodernist thought as it relates to film and philosophy Choice      **A Kid's Guide to African American History** Nancy I. *Heroizability* Ibrahim Taha,2015-07-01 It is commonly believed that some approaches of structural semiotics narratology and cognitive science have not yet succeeded in constructing a complete and coherent theory of literary character The author argues that the primary explanation of the failure is the artificial separation between characters and their actions One of the chief implications of such separation is treating characters in terms of structures agents actants functions roles and signs which obviously mean that actions can hardly be explained as intended motivated performed and experienced Survival as a motivation based concept is one of the key concepts making the separation between character and action something impossible Humans in literary narratives search for survival as an aware process of knowing and meaning making Meaning in literary narratives can be produced by heroizability which treats literary characters as living anthroposemiotic entities aware of their natural motivation to achieve in order to survive and produce meanings of their survival As such characters in literary narratives have active cognitions and their cognitive activities remain meaningless without a process of semiosis Applying Anthroposemiotic theory with Modeling System Theory heroizability provides methodical tools to explain how the narrative text is represented and thus how it is to be interpreted properly by the reader not only to find but also to make meaning in narrative world      Lewis & Clark Kris Fresonke,Mark Spence,2004-02-25 Two centuries after their expedition awoke the nation both to the promise and to the disquiet of the vast territory out west Lewis and Clark still stir the imagination and their adventure remains one of the most celebrated and studied chapters in American history This volume

explores the legacy of Lewis and Clark's momentous journey and on the occasion of its bicentennial considers the impact of their westward expedition on American culture. Approaching their subject from many different perspectives—literature, history, women's studies, law, medicine, and environmental history—among others, the authors chart shifting attitudes about the explorers and their journals together creating a compelling, finely detailed picture of the interdisciplinary intrigue that has always surrounded Lewis and Clark's accomplishment. This collection is most remarkable for its insights into ongoing debates over the relationships between settler culture and aboriginal peoples, law and land tenure, manifest destiny and westward expansion, as well as over the character of Sacagawea, the expedition's vision of nature, and the interpretation and preservation of the Lewis and Clark Trail.
