

Chapter 26

The Cold War (1945–1960)

Prentice Hall Chapter 2 cold War

**Joseph N. Weatherby, Craig
Arceneaux, Emmit B. Evans, Dianne
Long, Ira Reed, Olga D. Carter**

Prentice Hall Chapter 2 Cold War:

The Pattern of Imperialism Tony Smith, 1981-10-30 The principal ambition of this book is to provide an avowedly eclectic although largely political explanation of American and British imperialism as comprehensive and ultimately as unified as that offered by Marxist interpretations Geopolitical considerations are assumed to be basic but not exclusive concerns of foreign policy elites in Britain and the United States and the ability of people in Latin America Africa and Asia to coordinate their activities that is to act politically is assumed to be the central but not sole feature determining the character of their response to Western imperialism The book provides profiles of various southern political regimes and categorises their different reactions to the impact of imperialism in the nineteenth century and to the impetus for decolonisation after 1945 The author concludes by considering the dilemma of American policy toward the Third World in the early 1980s when traditional modes of conduct can no longer prescribe a clear plan of action

International Relations, 2nd Edition Chandra Prakash, 2009-11-01 This book is designed to meet the requirements of post graduate students of political science and aspirants for higher services the book will appeal to all those who are interested in international affairs

No Use Thomas M. Nichols, 2014 For more than forty years the United States has maintained a public commitment to nuclear disarmament and every president from Ronald Reagan to Barack Obama has gradually reduced the size of America's nuclear forces Yet even now over two decades after the end of the Cold War the United States maintains a huge nuclear arsenal on high alert and ready for war The Americans like the Russians the Chinese and other major nuclear powers continue to retain a deep faith in the political and military value of nuclear force and this belief remains enshrined at the center of U.S. defense policy regardless of the radical changes that have taken place in international politics In No Use national security scholar Thomas M. Nichols offers a lucid accessible reexamination of the role of nuclear weapons and their prominence in U.S. security strategy Nichols explains why strategies built for the Cold War have survived into the twenty first century and he illustrates how America's nearly unshakable belief in the utility of nuclear arms has hindered U.S. and international attempts to slow the nuclear programs of volatile regimes in North Korea and Iran From a solid historical foundation Nichols makes the compelling argument that to end the danger of worldwide nuclear holocaust the United States must take the lead in abandoning unrealistic threats of nuclear force and then create a new and more stable approach to deterrence for the twenty first century

Manhood and American Political Culture in the Cold War K.A. Cuordileone, 2012-11-12 *Manhood and American Political Culture in the Cold War* explores the meaning of anxiety as expressed through the political and cultural language of the early cold war era Cuordileone shows how the preoccupation with the soft malleable American character reflected not only anti Communism but acute anxieties about manhood and sexuality Reading major figures like Arthur Schlesinger Jr. Adlai Stevenson Joseph McCarthy Norman Mailer JFK and many lesser known public figures Cuordileone reveals how the era's cult of toughness shaped the political dynamics of the time and inspired a reinvention of the liberal as a

cold warrior **Disrupting Science** Kelly Moore,2013-12-15 Drawing extensively from archival sources and in depth interviews Kelly Moore examines the features of American science that made it an attractive target for protesters in the early cold war and Vietnam eras including scientists work in military research and activities perceived as environmentally harmful She describes the intellectual traditions that protesters drew from liberalism moral individualism and the New Left and traces the rise and influence of scientist led protest organizations such as Science for the People and the Union of Concerned Scientists Moore shows how scientist protest activities disrupted basic assumptions about science and the ways scientific knowledge should be produced and recast scientists relationships to political and military institutions Jacket Re-Viewing the Cold War Patrick M. Morgan,Keith Nelson,2000-02-28 A cooperative effort by a number of historians and political scientists this essay collection focuses on the important connection between domestic affairs and foreign relations during the Cold War The case studies treat phases of both the Soviet and American experiences and involve contributions by two Russian scholars three Americans a German a Swede and an Israeli This collection is particularly timely and significant because of the surprising way the Cold War ended making clear that domestic developments can overthrow even the most potent foreign policies and undermine longstanding assumptions about the primacy of international factors A provocative essay collection this will be of interest to diplomatic historians and Soviet Affairs specialists scholars and students *The Other World* Joseph N. Weatherby,Craig Arceneaux,Emmit B. Evans,Dianne Long,Ira Reed,Olga D. Carter,2016-01-08 The Other World combines a thematic and area studies approach to explore contemporary global issues in the developing world Accessible and interdisciplinary this text offers political economic social and historical analysis plus case studies on Latin America Sub Saharan Africa North Africa and the Middle East Central Asia and the Southern Near Abroad and Asia Highlighting similarities and differences among these regions and focusing on enduring problems The Other World is a practical look at the issues affecting the majority of the world s population **The Long Land War** Jo Guldi,2022-05-03 A definitive history of ideas about land redistribution allied political movements and their varied consequences around the world An epic work of breathtaking scope and moral power The Long Land War offers the definitive account of the rise and fall of land rights around the world over the last 150 years Matthew Desmond Pulitzer Prize winning author of *Evicted* Poverty and Profit in the American City Jo Guldi tells the story of a global struggle to bring food water and shelter to all Land is shown to be a central motor of politics in the twentieth century the basis of movements for giving reparations to formerly colonized people protests to limit the rent paid by urban tenants intellectual battles among development analysts and the capture of land by squatters taking matters into their own hands The book describes the results of state engineered land reform policies beginning in Ireland in 1881 until U S led interests and the World Bank effectively killed them off in 1974 The Long Land War provides a definitive narrative of land redistribution alongside an unflinching critique of its failures set against the background of the rise and fall of nationalism communism internationalism information technology and free

market economics In considering how we could make the earth livable for all she works out the important relationship between property ownership and justice on a changing planet *Science Between Myth and History* José G. Perillán, 2021

Science Between Myth and History explores scientific storytelling and its implications on the teaching practice and public perception of science In communicating their science scientists tend to use historical narratives for important rhetorical purposes This text explores the implications of doing this Black Muslim Religion in the Nation of Islam, 1960-1975

Edward E. Curtis IV, 2009-01-05 Elijah Muhammad's Nation of Islam came to America's attention in the 1960s and 1970s as a radical separatist African American social and political group But the movement was also a religious one Edward E Curtis IV offers the first comprehensive examination of the rituals ethics theologies and religious narratives of the Nation of Islam showing how the movement combined elements of Afro Eurasian Islamic traditions with African American traditions to create a new form of Islamic faith Considering everything from bean pies to religious cartoons clothing styles to prayer rituals Curtis explains how the practice of Islam in the movement included the disciplining and purifying of the black body the reorientation of African American historical consciousness toward the Muslim world an engagement with both mainstream Islamic texts and the prophecies of Elijah Muhammad and the development of a holistic approach to political religious and social liberation Curtis's analysis pushes beyond essentialist ideas about what it means to be Muslim and offers a view of the importance of local processes in identity formation and the appropriation of Islamic traditions **Soldiers, Statecraft, and History** James A. Nathan, 2002-08-30

The increasing capacity of states to muster violence the concomitant rise of military power as a meaningful instrument of foreign policy and the frequent episodic collapse of that power are considered in this examination of force order and diplomacy Nathan points to periods of relative order and stability in international relations the time immediately prior to the rise of Frederick the Great for example or the half century after the Napoleonic Wars as times when states have been most vulnerable to spoilers and rogues Only the power of the Cold War blocs fostered durable order Now notwithstanding novel elements of globalization international relations appear as dependent as ever on the prudent management of force Students scholars and soldiers are frequently exposed to Clausewitz Westphalia Napoleon World War I and the like But what makes these events and individuals so important This book is Clausewitz's successor insisting that soldiers and statesmen know and master the integrative potential of force Nathan provides a narrative account of the people and events that have shaped international relations since the onset of the state system He asserts that an understanding of the limits and utility of persuasion as well as the corresponding limits and utility of force will help assure national security in a world filled with more uncertainties than ever in the last 50 years *A More Perfect Union* Linda Sargent Wood, 2012-10-18

This book uncovers a holistic sensibility in post World War II American culture that challenged Cold War logic and fed some of the century's most powerful social movements This impulse is illustrated by focusing on Rachel Carson Buckminster Fuller Martin Luther King Jr Abraham Maslow Pierre Teilhard de Chardin and the Esalen

Institute Fundamental Principles of International Relations J. Martin Rochester, 2010-10 This book distills the essential elements of world politics both the enduring characteristics as well as the revolutionary changes that may be altering the very fabric of the centuries old state system Author J Martin Rochester explores all the important topics that one would expect to find in an IR text war diplomacy foreign policy international law and organization the international economy and more but injects fresh perspectives on how globalization and other contemporary trends are affecting these issues In addition the author does so through a highly engaging lively writing style that will appeal to today s students Fundamental Principles of International Relations is a tightly woven treatment of international politics past and present drawing on the latest academic scholarship while avoiding excessive jargon and utilizing pedagogical aids while avoiding clutter Rochester ultimately challenges the reader to think critically about the future of a post Cold War and post 9 11 world that is arguably more complex if not more dangerous than some previous eras with the potential for promise as well as peril **The**

Analogue Alternative James S. Small, 2013-06-17 We are in the midst of a digital revolution until recently the majority of appliances used in everyday life have been developed with analogue technology Now either at home or out and about we are surrounded by digital technology such as digital film audio systems computers and telephones From the late 1940s until the 1970s analogue technology was a genuine alternative to digital and the two competing technologies ran parallel with each other During this period a community of engineers scientists academics and businessmen continued to develop and promote the analogue computer At the height of the Cold War this community and its technology met with considerable success in meeting the urgent demand for high speed computing for use in the design and simulation of rockets aircraft and manned space vehicles The Analogue Alternative tracks the development commercialisation and ultimate decline of the electronic analogue computer in the USA and Britain It examines the roles played by technical economic and cultural factors in the competition between the alternative technologies but more importantly James Small demonstrates that non technical factors such as the role of military enterprise and the working practices of analogue engineers have been the most crucial in analogue s demise l This book will be of interest to students of the history and sociology of science and technology particularly computing It will also be relevant to those interested in technical change and innovation and the study of scientific cultures Military Production and Innovation in Spain Jordi Molas-Gallart, 1992 Military Production and

Innovation in Spain extends the scope beyond the traditional analysis of arms producers to include components and sub systems manufacturers It combines a description of the changes experienced by Spanish military production with an analysis of its deeply rooted structural characteristics The book provides an in depth exploration of the Spanish military related industry its links with the rest of the economy and its potential role as a technological engine for the Spanish economy

Globalization Contained L. Hoovestel, 2013-09-19 Examining the global significance of the freight container with particular emphasis on the perspectives of the US and China Globalization Contained considers the implications of the freight

container as an agent of change for the future of the global economy and global security **Foreign Policy Motivation**

Richard W. Cottam, 1977-01-15 Foreign policy motivation is a complex mix reflecting the fears and aspirations of publics interest groups bureaucratic sets and important individuals International conflict cannot be resolved without resolving how foreign policy is motivated This book presents a conceptual framework for identifying and weighing foreign policy motives that shape direct and alter foreign policy Who Elected the Bankers? Louis W. Pauly, 1997 Ch 1 Global Markets and

National Politics Ch 2 The Political Economy of International Capital Mobility Ch 3 The League of Nations and the Roots of Multilateral Oversight Ch 4 The Transformation of Economic Oversight in the League Ch 5 Global Aspirations and the Early International Monetary Fund Ch 6 The Reinvention of Multilateral Economic Surveillance Ch 7 The Political Foundations of Global Markets **United States-Japan Relations and International Institutions After the Cold War** Peter Alexis
