curiosity in this great big world of ours by discovering how everything works and lives together with our Hands On Life Science resource for grades 1-5. Combining Science, Technology, Engineering, Art, and Math, this resource aligns to the STEAM initiatives and Next Generation Science Standards. Dive right in by getting a firsthand look at ecosystems and building your own terrarium. Make information sheets for plants and animals complete with hand-made drawings. Design your own food chain while grasping the knowledge about producers, consumers, and decomposers. See what traits you inherited from your parents while learning about different adaptations. Learn about life cycles by studying a caterpillar's marvelous transformation into a butterfly. Explore your own brain with memory games and tracking your heart rate and dreams while you sleep. Each concept is paired with reproducible hands-on experiments and comprehension activities to ensure your students are engaged and fully understand the concepts. Reading passages, graphic organizers, before you read, and assessment activities are included.

Energy: Other Forms of Potential Energy George Graybill, 2013-10-01. This is the chapter slice Other Forms of Potential Energy from the full lesson plan Energy. Unlock the mysteries of energy. Energy is more than the ability to do work; we present these concepts in a way that makes them more accessible to students and easier to understand. The best way to understand energy is to first look at all the different kinds of energy, including What Is Energy, Mechanical Energy, Thermal Sound Energy, and Waves, as well as Light Energy. Our resource provides ready-to-use information and activities for remedial students using simplified language and vocabulary. We also explore other forms of potential energy as well as how energy moves and changes. Written to grade and comprised of reading passages, student activities, and color mini-posters, our resource can be used effectively for your whole class. All of our content meets the Common Core State Standards and are written to Bloom's Taxonomy and STEM initiatives.
