*BSA Sunbeam & Triumph Tigress Scooter 1959-1965 Workshop Manual*, 2021-10-13 184 pages and more than 120 illustrations and charts size 8 25x10 75 inches This manual is a compilation of three factory publications including the owner's instruction manual the parts spares manual and a set of service sheets These publications cover all three variations of the 175cc two stroke and the 250cc four stroke and electric start models manufactured from 1959 1965 Neither BSA nor Triumph ever published a workshop manual for these models however the combination of these three publications provides the most comprehensive maintenance and repair information that was ever made available from the manufacturer **MANUALS** the latter in a shell blue or mimosa and ivory two tone with a Triumph badge Introduced in late 1959 the scooter was available with a 250 cc four stroke twin 10hp or 175cc two stroke single cylinder engine 7 5hp Both engines were forced air cooled The two stroke was a development of the BSA Bantam engine but the four stroke was a completely new parallel twin with a gear drive to the gearbox The contact breaker fed two separate ignition coils each of which connected directly to its own spark plug without the need for a distributor Drive to the rear wheel was by a fully enclosed chain in an oil bath Both versions had four foot operated gears Some of the 250 twins were fitted with an electric starter and a 12 volt not 6 volt electrical system they were identified as either B2S Sunbeam or TW2S Triumph The 250 cc four stroke model was discontinued in 1964 and the 175cc two stroke model in 1965 *Piaggio/Vespa Scooters* Matthew Coombs, 1998 This is one in a series of manuals for car or motorcycle owners Each book provides information on routine maintenance and servicing with tasks described and photographed in a step by step sequence so that even a novice can do the work **Wipac (Combined) Number 3 Manual and Motorcycle & Scooter Manual 1950-1969** Wipac Group, Velocepress, 2022-05-16 196 pages with more than 400 illustrations and charts plus 77 wiring diagrams size 8 25 x 10 75 inches This manual is a must have for any owner of a 1950 through 1969 motorcycle scooter or moped equipped with a Wipac electrical system Wipac issued two ring bound versions of this manual The first was titled Number 3 Manual and the second Motorcycle Scooter Manual but unfortunately the publication dates of the individual pages were not identified However based on the contents we can estimate that they were published in 1964 and 1969 approximately The later manual contains considerably more information plus numerous updates to the data in the earlier manual Unfortunately some of the information from the earlier manual was also omitted from the later manual as it was probably considered to be outdated However as that outdated information is of significant interest to today's owners and restorers we have combined the entire data from both manuals into a single publication Please note that wherever the earlier data had been updated we have only included the latest update in order to prevent duplication of information This combination manual includes alternator and generator testing and servicing instructions spare parts illustrations and part numbers plus Technical Data Sheets and Service Bulletins that provide additional information due to model updates and or electronic equipment modifications It also includes wiring
