The Reign of Terror was well under way and Louis XVI and Marie Antoinette had already been executed Britain and France were at war and anyone in Britain still supporting the French Revolution was untrustworthy Thomas Paine because of works such as *The Age of Reason* fell into that category Paine's works led to his fleeing England to set sail for France specifically part II of *Rights of Man* led to this move after it was declared seditious There he wrote the first part of *The Age of Reason* in response to the secularism and atheism that had gripped the French Revolution Despite the fact that the French inspired this work Paine dedicated it to his Fellow Citizens of the United States of America France didn't prove a safe haven for him either he was imprisoned there for ten months because the Jacobins thought him too moderate He was nearly executed by guillotine but managed to escape that fate After his release and despite poor health Paine began work on part II of *The Age of Reason* Following the success of part II Paine left France for the United States where he wrote part III titled *The Age of Reason An Examination of the Passages in the New Testament Quotes from the Old and Called Prophecies Concerning Jesus Christ* Thomas Jefferson convinced him not to publish this third part in 1802 but Paine did so anyway five years later Part I of *The Age of Reason* outlines Paine's own beliefs He writes that he believes in one God and the equality of man He believes that one's religious duties require justice mercy and making others happy He goes on to say that he doesn't believe in the creeds professed by any church and that his mind is his church all other churches that he knows of are devices created by man to enslave others while monopolizing power to turn a profit He then attacks revelation According to Paine the fact that a revelation can only be confirmed by the one who experienced it is insufficient evidence for its truth and God's existence Because he believes in a creator God Paine urges his readers to rely instead on reason and look to the natural world for evidence of God's existence *The Age of Reason* continues to use the Bible's words against itself Paine examines the book as a work of literature and nothing more testing its consistency and finding it wanting He also tests its historical accuracy and determines the book was not inspired by the divine Paine turns his discussion toward religion and the state highlighting the lust for power that grips institutions and its priests pointing out the Church's oppression of scientific
