I thoroughly enjoyed reading the manuscript The simple fun way the fable is written captivates the interest of the reader I love the way the lessons are weaved into the fable and how they are presented pulled out for emphasis in a book format The main lesson and contributing lessons are profound and apply to any organization and individuals at a personal level The diverse characters seem to come to life and the fable highlights the importance of teamwork leveraging the unique skills of the team In addition it points out that leadership among team members is fluid and situational Such a fable can be used in academic and business settings Academically it would be valuable for students learn that they are empowered to create the path in front of them and how to be creative to overcome obstacles In a business environment it could reinforce for executives the importance of building a culture of innovation
