[Shakespeare and the Authorship of the Sonnets](#) Dennis Hirsch,2024-02-28 The persona of Edward de Vere represents a contrast to the canonical Stratfordian image of Shakespeare His adulterous affair with a teenage girl half his age his complicity in acts of treason against Queen Elizabeth and the bankruptcy of his earldom due to his lavish spending all combine to paint a picture of a man contrary to the Stratfordian ideal

However it is this unattractive portrayal of him that supports the argument that de Vere wrote the sonnets since the sonnets themselves offer up underlying messages of ridicule deception avarice and sexual obsession that doggedly champion the author's own best interests above others This work presents an Oxfordian reading of the sonnets and the problematic life of Edward de Vere the 17th Earl of Oxford

Live Stress-Free with Statistics and Numbers Vasant D. Chapnerkar, 2013-06-05 Statistics is defined as the science and practice of developing knowledge through the use of empirical data expressed in quantitative form that is in numbers In Live Stress Free with Statistics and Numbers Dr Vasant Cjapnerkar illustrates how statistics and numbers play a vital role in our everyday lives He explains how you can use statistics can help to alleviate the

stress in your life because they provide practical objective ways of viewing your problems One of the first examples he uses is the way in which he asked his children to have their children If they allowed for at least two to four years between each child they and the grandparents would have the chance to spend time with them at the ages when they would get the most from it He built on the statistic that most children begin playing with their friends around age four a theory that enabled him and his wife to fully enjoy their grandchildren Since he has traveled to over eighty seven countries using his educational background he has realized that people make statements based upon minimal information and hence are stressed out when they are pressed to quantify their statements Live Stress Free with Statistics and Numbers was written to provide them with a greater comfort level with statistics and numbers a vital part of everything we do There is very little in life that has no number associated with it
