Parapsychology David Groome, Ron Roberts, 2024-06-28 This new edition of *Parapsychology* continues to challenge and provoke readers with some of psychology's most puzzling phenomena. Whether believers or sceptics the book provides readers with the opportunity to further their understanding of the paranormal bridging the gap between traditional psychology and fringe areas. With contributions from leading paranormal researchers this edition has been thoroughly updated and includes new chapters on dreams precognition and prediction of future events and anthropology. The book has been reorganised to help readers frame each phenomenon within the context of cognition science and religion and chapters are structured around science and experience cognition and belief religious belief and science and further topics in parapsychology. The book covers a range of topics that can be considered parapsychological including reincarnation entity encounters astrology mediumship and near death experiences. Providing a balanced introduction to parapsychology that explores the strengths and limitations of scientific investigation this is essential reading for students and professionals in the field along with anyone interested in learning more about the science of the paranormal.
