**Kangchenjunga** Doug Scott, 2021-07-01 Kangchenjunga is the third highest mountain in the world and a notoriously difficult and dangerous mountain to climb First climbed from the west in 1955 by a British team comprising Joe Brown George Band Tony Streather and Norman Hardie it waited over twenty years for a second ascent

The third ascent from the north followed in 1979 by a four man team including the visionary British alpinist Doug Scott Completed before his death in 2020 and edited by Catherine Moorehead Kangchenjunga is Doug Scott s final book Scott explores the mountain and its varied people the mountain sits on the border between Nepal and Sikkim in north east India before going on to look at Western approaches and early climbing attempts on the mountain Kangchenjunga was in fact long believed to be the highest mountain in the world until in the nineteenth century it was demonstrated that Peak XV Everest was taller Out of respect for the beliefs of the Sikkim no climber has ever set foot on the very top of Kangchenjunga the sacred summit Scott s own relationship with the mountain began in 1978 three years after his first British ascent of Everest with Dougal Haston The assembled team featured some of the greatest mountaineers in history Scott Joe Tasker Peter Boardman and Georges Bettembourg The plan was for a stripped down expedition the following spring minimal Sherpa support no radios largely self financed It was the first time a mountain of this scale had been attempted by a new and difficult route without the use of oxygen and with such a small team Scott Tasker and Boardman summited on 16 May 1979 further cementing their legends in this golden era Kangchenjunga is Doug Scott s tribute to this sacred mountain a paean for a Himalayan giant written by a giant of Himalayan climbing *Miscellanea di storia delle esplorazioni* ,2007 **Hombres Contra Un Gigante** Yves de Chazournes,2013-06-16 Because it is there That was the simple answer George Mallory one of the first Alpinists who went to extremes gave a journalist in 1924 when asked why he never gave up trying to conquer Mount Everest From 1921 until 1953 there were no fewer than eleven expeditions to reach the top After more than 30 years of adventure dreams failures records and successes Everest became accessible through the discoverers of the Third Pole Alexander Kellas George Mallory John Noel Andrew Irvine Edmund Hillary Sherpa Tenzing Norgay and many others This book tells the incredible and epic story of the Everest pioneers who navigated the roof of the world 8 848 metres from the first expeditions until victory in 1953 through more than 500 photos from the photo archives of the Royal Geographical Society which organized the first expeditions **Fallen Giants** Maurice Isserman,Stewart Weaver,2008-09-01 In the first comprehensive history of Himalayan mountaineering in 50 years the authors offer detailed original accounts of the most significant climbs since the 1890s and they compellingly evoke the social and cultural worlds that gave rise to those expeditions [One Man's Everest](#) Kenton Cool,2015-08-27 The story that emerged from the Everest base camp on May 21 2013 was remarkable even in its bare essentials A British climber had marked the 60th anniversary of the first ascent of the world s highest peak by climbing not just Everest but the two huge mountains next to it all in one go It was an astonishing feat of endurance Kenton Cool and his Sherpa partner Dorje Gylgen had gained and lost ten vertical kilometers in the 120 hours it took them to climb Nuptse Everest and Lhotse They had barely slept or eaten They d burnt so many calories that Cool staggered back from Lhotse two stone lighter than when he had set out on the 15th It was the first time anyone had done the whole enormous Everest horseshoe in a single push Kenton Cool s first venture into serious rock climbing was

fittingly a very severe one on the South Coast near Swanage that had Cool battling for his life exhausted and exhilarated That summer he went straight out to the Alps and stormed up mountains that many climbers will spend lifetimes dreaming of but never quite attempting From then on the mountains have been his life From bivouacking under a rock for nights on end high above the Chamonix valley to getting the great adventurer Ranulph Fiennes who is by his own admission scared of heights to the top of Everest in 2009 and climbing the three peaks in 2013 Cool is recognized as the finest British climber of his generation Cool has been lucky or unlucky depending on your view Back from the Alps one June afternoon in 1996 he was on a route called Major Headstress in a Welsh slate quarry when a handhold broke and he fell 15 feet onto his heels He broke them both His heel pain is permanent His standard gait is a hobble When forced to stand still he sways to relieve the aching and at the end of a hard day in the mountains he can sometimes be found getting around on his hands and knees Kenton Cool has a delightful wife and two beautiful children yet every time he leaves for an expedition he may not return Why do you do it people ask him This book tells why
