Prentice Hall African American Answers History:

The Columbia Guide to African American History Since 1939 Robert L. Harris, Rosalyn Terborg-Penn, 2006 This book is a multifaceted approach to understanding the central developments in African American history since 1939. It combines a historical overview of key personalities and movements with essays by leading scholars on specific facets of the African American experience, a chronology of events, and a guide to further study. Marian Anderson's famous 1939 concert in front of the Lincoln Memorial was a watershed moment in the struggle for racial justice. Beginning with this event, the editors chart the historical efforts of African Americans to address racism and inequality. They explore the rise of the Civil Rights and Black Power movements and the national and international contexts that shaped their ideologies and methods. They consider how changes in immigration patterns have complicated the conventional black-white dichotomy in U.S. society, discuss the often uneasy coexistence between a growing African American middle class and a persistent and sizable underclass, and address the complexity of the contemporary African American experience. Contributors consider specific issues in African American life, including the effects of the postindustrial economy and the influence of music, military service, sports, literature, culture, business, and the politics of self-designation (e.g., Colored vs. Negro, Black vs. African American). While emphasizing political and social developments, this volume also illuminates important economic, military, and cultural themes. An invaluable resource. **The Columbia Guide to African American History Since 1939** provides a thorough understanding of a crucial historical period.

African American History Joanne Turner-Sadler, 2009 Every year more colleges and high schools are offering classes, and often making them required classes in black history. Joanne Turner Sadler provides a concise and probing treatment of 400 years of black history in America that can be used with age groups ranging from lower high school to college. In **African American History: An Introduction**, the author touches on key figures and events that have shaped African American culture, beginning with a look at Africa and its various civilizations and the migration of the African people to America. Some essential topics covered are the struggle with slavery, the role African Americans played in America's wars, including the current war in Iraq, race riots and unions, the NAACP civil rights and black power movements, the Harlem Renaissance, issues in education, the journey into the West, legal cases such as *Plessy vs. Ferguson* and *Brown vs. Board of Education*, African Americans as athletes, entertainers, and statesmen. This book is an indispensable addition to all library collections as well as a teaching tool for instructors. It is heavily illustrated with photos, maps, timelines, with useful end-of-the-chapter questions and activities for further study, and includes a handy bibliography of suggested readings and an index. New in this edition is a section on the historic election of Barack Obama, the first African American president of the United States. Interesting connections Obama has to past presidents are explored as well. This edition also contains enhanced discussions of Colin Powell and Condoleezza Rice and the historic positions both held. **A Kid's Guide to African American History** Nancy I.
