Thalen & Thalen. Scenes Rob Thalen, Jaap Thalen, 2014-07-17 Jeroen Martens Director of the Sterckshof Silver Museum in Antwerp describes the work of silversmiths Rob and Jaap Thalen as following It is striking how father and son Thalen excel in knowledge of both traditional and contemporary techniques of the silversmith craft The purity and apparent simplicity of their designs give their work the semblance of effortlessness It is a testament to their excellent craftsmanship What drives them in their work is their passion and love for silver But it is their talent for design and their understanding of the possibilities of fine silver that make the work of Thalen Thalen so special Their most recent work is both practical and beautifully crafted in terms of purity Their designs bring silver back into everyday life Their work includes both unattainable art objects as well as very accessible wine and champagne cups cutlery sugar bowls Their creations made of the finest silver are inspired by the beautiful landscapes of the Ardennes and the sometimes harsh climate that fashions them The tactile surfaces of their creations are reminiscent of the harrowing landscapes the wild brooks and sometimes even of ruptured clay left behind in a dry river bed This is Rob and Jaap Thalen s second book and at the same time a catalogue of their exhibition in the Silver Museum Text in English Dutch French and German **Wolf's Cub** Mackay Wood, 1998-09 A fantasy on a conflict between love and duty in which a prince forsakes the woman he loves for an arranged marriage The other woman is a princess from a neighboring kingdom and her magical powers will make the prince s land more secure A first novel

Collective Skill Formation in the Knowledge Economy Giuliano Bonoli, Patrick Emmenegger, 2022-09-22 Interest in collective skill formation systems has been high for a long time but recent structural economic and societal developments have led commentators to question their viability In particular the shift towards a knowledge economy creates a number of challenges for these highly praised systems of vocational training These challenges relate to the growing importance of knowledge intensive production in advanced economies and with the accelerated pace of change due to innovation and globalization What is more these issues are compounded by coinciding developments in growing inequality and the emergence of multicultural societies Can collective skill formation systems adapt fast enough to the needs of the knowledge economy Can they continue to be as successful as they have been in the past in integrating youth in the labour market Will employers be willing to participate in the delivery of vocational training in this new context In this book a world class team of leading experts on collective skill formation systems provide a thorough discussion of these and other questions raised by the shift to a knowledge economy The book argues that collective skill formation systems remain attractive for firms and governments However continuous and profound adjustments will be needed if they are to fulfil their objectives in terms of equity and efficiency Fostering Learning in Small Groups Jane Westberg, PhD, Hilliard Jason, MD, EdD, 2004-01-01
