Reynolds,2015-06-08 In recent decades historians and film scholars have intensified their study of colonial cinema in Africa Yet the vastness of the continent the number of European powers involved and irregular record keeping has made uncovering the connections between imagery imperialism and indigenous peoples difficult This volume takes up the challenge tracing production and exhibition patterns to show how motion pictures were introduced on the continent during the Scramble for Africa and the subsequent era of consolidation The author describes how early actualities expeditionary footage ethnographic documentaries and missionary films were made in the African interior and examines the rise of mass black spectatorship While Africans in the first two decades of the 20th century were sidelined as cinema consumers because of colonial restrictions social and political changes in the subsequent interwar period wrought by large scale mining in southern Africa led to a rethinking of colonial film policy by missionaries mining concerns and colonial officials By World War II cinema had come to black Africa The Spectator ,1898 **The Oxford Companion to English Literature** Dinah Birch,2009-09-24 Written by a team of more than 150 contributors working under the direction of Dinah Birch and ranging in influence from Homer to the Mahabharata this guide provides the reader with a comprehensive coverage of all aspects of English literature **British Egyptian Relations** Noel Brehony,Ayman Ahmed El-Desouky,2012-08-01 This account of the first major forum to review relations between Britain and Egypt held in London in 2006 demonstrates how political economic and cultural interaction between the countries has developed since the Suez invasion of 1956 In addition to providing a historical assessment it suggests ways forward in both bilateral and international contexts Egyptian and British contributors include government ministers and specialists in history economics Egyptology business education culture and international affairs Contributors include Roger Owen Hugh Roberts Mustapha Kamel al Sayyid Heba Handoussa Fekri Hassan Yousry Nasrallah and Penelope Lively *Becoming Cosmopolitan* William L. Sachs,Wanjiru M. Gitau,2023-01-25 The legacy of Christian mission seems beyond dispute Western churches carried imperialist and racist assumptions as they evangelized and encouraged the formation of indigenous churches Amid those realities a different sensibility took root As the history of Virginia Theological Seminary illustrates missionaries who were alumni adapted to contextual circumstances in ways that challenged Western presumptions Mission encouraged cosmopolitan ties featuring mutuality and reciprocity The path to such relations was not straight nor always readily taken Yet over the seminary s two hundred year history the cosmopolitan direction has become evident on several continents As missionaries came home and leaders and students from abroad visited the seminary the ideal of cosmopolitan relations spread It became evident as mission churches took indigenous form and control It was reinforced as Western churches explored the dimensions of social justice American theological education affirmed the reality of diversity and recast its pedagogies in appreciative ways This book traces an epic shift in mission and theological education measured by the rise of cosmopolitanism in the life of Virginia Theological Seminary **Larry Michael Haag**,2025-07-03 Highly readable and elegant Spectator Lawrence Durrell was unquestionably one of the most distinctive

original and compelling literary figures of his age From his childhood in India and Burma to his bohemian youth in London and Paris from his madcap scheme to move his family to Corfu to the formative war years spent in Alexandria this masterful and richly detailed biography is essential reading to understand the man and the writer In Larry Michael Haag the world s foremost expert on the Durrells brought together his unrivalled knowledge and first hand meetings with the Durrell family and associates to offer the definitive account of the young Lawrence and the real life settings and stories that inspired his acknowledged masterpiece *The Alexandria Quartet* *Rural Politics in Nasser's Egypt* James B. Mayfield,2014-09-01 On September 29 1970 President Gamal Abdel Nasser died of a heart attack The hysterical outpouring of grief at the state funeral dramatized the depth to which the loss of this charismatic leader shook the Arab world Few men have achieved the love prestige and adulation that Nasser received from the Arab masses Yet in reality Nasser s political life was a tragic story This book is a careful analysis of Nasser s belated attempts to modernize the rural areas of Egypt It documents the political economic and social factors that made Nasser s dream for his people unattainable in his lifetime Forced to choose between domestic needs and international challenges Nasser s attention was too often directed beyond the borders of Egypt His vision of renewed Arab greatness his dream of Arab unity and his concern for Arab development often distorted his perception of his own country While no one who personally conversed with Nasser doubted his sincere desire for a better life for the peasants of the Nile Valley many noted his tendency to allocate resources more on the basis of dreams rather than the realities of Egypt s domestic problems Granted permission to move freely through Egypt s twenty five provinces prior to the 1967 travel restrictions James B Mayfield had a unique opportunity to personally observe Nasser s dramatic attempts to bring progress and development to his people The two decades of Nasser s rule colored and shaped events in Egypt for many years after his death *French Discovery in an Age of Revolution* Jim Libby,2023-07-28 The chaos of the French Revolution was quickly followed by the somewhat less chaotic rule of Napoleon Bonaparte For roughly 25 years France saw five constitutions countless warring political factions governments that included a monarchy a republic and an empire and almost constant warfare with most of Europe At the same time the French fought from within sending thousands of its own people to the guillotine And yet there were perhaps more advancements during that time than any other in world history Two brothers launched hot air balloons inaugurating the age of flight more than 100 years before Orville and Wilbur Wright Modern chemistry was developed eclipsing the strange and superstitious field of alchemy which preceded it The metric system was created Napoleon Bonaparte s army explored Egypt for three years and a French man would later translate the mysterious hieroglyphs This book details these French advances and more including the first photograph the first automobile and development of the process that spawned computer programming *The Lamp* [ed. by T.E. Bradley]. Thomas Earnshaw Bradley,1883 **Balliol College: A History, Second Edition** John Jones,1997-07-10 This is an admirably scholarly work and a good read too Its illustrations and plans are well chosen John Jones gives us a great deal of new and detailed

information about many aspects of the College's life and some balanced revisions of traditional judgements. It will remain the standard work for a long time. Christopher Hill

**America's Religions** Peter W. Williams, 2015-11-15 A classroom perennial and comprehensive guide America's Religions lays out the background, beliefs, practices and leaders of the nation's religious movements and denominations. The fourth edition, thoroughly revised and updated by Peter W. Williams, draws on the latest scholarship. In addition to reconsidering the history of America's mainline faiths, it delves into contemporary issues like religion's impact on politics and commerce, the increasingly high profile of Buddhism, Hinduism and Islam, Mormonism's entry into the mainstream and battles over gay marriage and ordination.

*„And on this Rock I Will Build My Church“. A New Edition of Philip Schaff's „History of the Christian Church“* Muhammad Wolfgang G. A. Schmidt, 2017-07 This voluminous work on Church History by Philip Schaff (1819-1893) was originally published between 1858 and 1893 in eight volumes in the USA and covers the period from the beginnings of Biblical Christianity in A.D. 1 to the History of the Reformation in Germany and Switzerland (1517-1648). Being still a popular text in North America, this work had been out of print for over a century and has now been carefully edited and reformatted for republication in three volumes, each of them containing the text of two volumes of the original edition. Schaff's work, unlike other works in the field, covers a multitude of church history-related aspects from church doctrine, policy, events and processes to aspects of social, moral and family life, arts and more. It is a very comprehensive text, extremely well written and readable, rich in material and sources used, and attests to the excellence of Protestant German theological scholarship under the influence of emerging Historical-Critical Biblical Exegesis at his time. This second volume covers the period from the Nicene and Post-Nicene Fathers to Medieval Christianity (A.D. 311-1073).
