The World's Number One, Flat-Out, All-Time Great, Stock Car Racing Book Jerry Bledsoe, 2019-02-01 On Labor Day weekend of 1972 journalist Jerry Bledsoe hooked up with the stock car racing circuit to begin research for his first book The result of his efforts first published in 1975 has been called the classic work on stock car racing Bledsoe captures the beginnings of the modern NASCAR era a time when legends like Richard Petty David Pearson Bobby Allison and the Wood brothers ruled It was also a time when independent drivers like Wendell Scott NASCAR's first African American driver and Larry Smith could build a car in their garages during the week and race on Sunday alongside King Richard With levels of access impossible to achieve today Bledsoe is not only in the pits and garages with the drivers but also is alongside their family driving to the next race in a van piled high with ice chests filled with sandwiches and fried chicken He digs into the sport's rough and rowdy history and shines a light into its nooks and crannies uncovering the forgotten role that women drivers played in creating this most macho of motorsports And then there are the fans There's Red Robinson the self-proclaimed World's Number One Stock Car Racing Fan who collects racing beauty queens the way some people collect stamps And the fans camped out in the infield at Darlington the biggest wildest whoopingest holleringest drinkingest gamblingest carousingest knock down fall out blowout held in the South More than a book about racing this is a close up look at a cultural phenomenon that illuminates America and the South In 1965 Tom Wolfe called racer Junior Johnson the last American hero *The World's Number One All-Time Great Stock Car Racing Book* shows that a decade later there were still plenty of heroes circling the track with no signs of them disappearing anytime soon

Racial Resentment in the Political Mind Darren W. Davis, David C. Wilson, 2021-12-27 A thought provoking look at how racial resentment rather than racial prejudice alone motivate a growing resistance among whites to improve the circumstances faced by racial minorities In *Racial Resentment in the Political Mind* Darren W Davis and David C Wilson challenge the commonly held notion that all racial negativity disagreements and objections to policies that seek to help racial minorities stem from racial prejudice They argue that racial resentment arises from just world beliefs and appraisals of deservingness that help explain the persistence of racial inequality in America in ways more consequential than racism or racial prejudice alone The culprits as many White people see it are undeserving people of color who are perceived to benefit unfairly from and take advantage of resources that come at Whites expense a worldview in which any attempt at modest change is seen as a challenge to the status quo and privilege Yet as Davis and Wilson reveal many Whites have become racially resentful due to their perceptions that African Americans skirt the rules of the game and violate traditional values by taking advantage of unearned resources Resulting attempts at racial progress lead Whites to respond in ways that retain their social advantage opposing ameliorative policies minority candidates and other advancement on racial progress Because racial resentment is rooted in beliefs about justice fairness and deservingness ordinary citizens who may not harbor racist motivations may wind up in the same political

position as racists but for different reasons *RECALLING POTENTIAL OF TV COMMERCIALS* Dr.R.VIDWAKALYANI,

Safe Space Rhetoric and Race in the Academy James Gerard Noel,2023-01-09 On May 25 2020 George Floyd was brutally killed at the hands of the police Amplified by Donald Trump s handling of the incident Floyd s death caused what some would term as a racial reckoning a reckoning that pervaded different parts of American and even international life As Floyd was killed during an arrest the matter of public safety did not escape this reckoning prompting some to call for the defunding of law enforcement and to question what is truly meant by safety in society In *Safe Space Rhetoric and Race in the Academy A Reckoning* James Noel contends that national discussions about safety should not be excluded from conversations about safety in academia Noel examines the presence of safe space rhetoric in academia and illustrates the ways that designating safe spaces can be a panacea for chronic institutional problems groups on campus may face The book unflinchingly interrogates what it means to be safe in academia in the hope to find a starting place for radical possibility
