**An Old Bachelor's Thoughts on Love, Marriage, and Compatibility** David Webster,2025-05-29 My Thoughts on Love Marriage and Compatibility It stands to reason that to get good practical advice you should look to someone who s been there and done it With all the qualified and experienced pastors councilors sociologists etc who have written on love and marriage why should a lifelong bachelor with no specific education on the subject bother to write on it First just to explain my views since I have difficulty doing so in person Also it s my observation that no one is so ignorant that a wise person can t learn something of value from him So I wrote this for those friends who can glean wisdom from the most unpromising sources It has quite a different perspective than most so for what it s worth there may be something here that s not in scholarly works While divorce was multiplying marriage books and counseling by marriage experts were too almost all by married people That says inside the box thinking isn t doing enough It s easier to think outside the box when you live outside the box The main thrust of this booklet is this the more Christians love the Lord the more compatible they are period and the more they value the things of this world this life good or bad the more those things will come between them At the same time God will bless those who s courtship and marriage model the union of Christ and His Church and not those that don t even when those attitudes good or bad were acquired as a cultural norm while growing up and not as a well thought out belief It s God s first purpose for marriage to symbolize and in believers demonstrate that blessed relationship so we all have a way to believe in what would otherwise be beyond comprehension It s very much a love story

*The Bachelor of the Albany* ,1849 **The Rich Cut Glass of Charles Guernsey Tuthill** Maurice Crofford,2001 In this detailed narrative of the business Tuthill founded the patterns he created the techniques he used and the other artisans and consumers he knew Maurice Crofford has written the story of an earlier more elegant and leisurely era For those knowledgeable about cut glass the development of the forms will be instructive for others who simply appreciate the beauty of the glass the numerous black and white photographs will appeal Beyond both of those dimensions however Crofford provides a fascinating insight into the ways industrialization and mass production and more especially the automobile changed forever the ways upper class Americans lived entertained and displayed their good fortune In Tuthill s career moreover Crofford finds an example of American ingenuity and creative genius in responding to changing times
