www.owaysonline.com , ASM MASTERS ORALS QUESTION BANK SEGREGATED AS PER SURVEYORS www owaysonline com **The Indonesian Production Sharing Contract:An Investor's Perspective** Tengku Nathan Machmud,2000-07-12

The model contract for oil and gas development known as the Production Sharing Contract PSC originated in Indonesia in 1966 and enjoyed over a decade of successful implementation with minor adjustments in several oil producing countries In more recent years however numerous problems have arisen as changes in economic realities have driven the level of private investment down This penetrating study the only one of its kind uses legal analysis as well as historical data to pinpoint the reasons for the initial success of the PSC and for its subsequent and persistent frustrations for investors The author first examines the original Indonesian contract along with the variants adopted in Malaysia and the People s Republic of China and then proceeds to an in depth analysis of the main clauses and their amendments and execution in all three countries Taking into account various commissioned surveys and emerging policies and strategies espoused by both governments and industry representatives he concludes with a detailed proposal for an overhauled contract that allows for meaningful adjustments or even renegotiation when the balance of interests between parties changes substantially Focusing as it does on some central issues in global economic development The Indonesian Production Sharing Contract will be of great value to lawyers multinational corporate executives and policymakers far beyond the Asia Pacific region Political Oppositions in Western Democracies Robert A. Dahl,1966-03-11 The idea that the opposition has a right to organize and to appeal for votes against the government in elections and in parliament is one of the most important milestones in the development of democratic institutions Mr Dahl and nine collaborators analyze the role of the opposition in Austria Belgium France Germany Great Britain Italy the Netherlands Norway Sweden and the United States In introductory and concluding chapters Dahl compares the patterns of opposition in these countries and makes predictions for the future He carries forward on the basis of this evidence the theory of a pluralistic society he has explored in earlier books such as Who Governs Mr Dahl is Sterling Professor of Political Science at Yale University His collaborators are Samuel Barnes Hans Daalder Frederick Engelmann Alfred Grosser Otto Kirchheimer Val R Lorwin Allen Potter Stein Rokkan and Nils Stjernquist This stately volume is distinguished by several unusual features First it straightforwardly focuses on a crucial issue of Comparative Politics without being vitiated by the familiar behaviorist semantics and jargon Secondly contrary to the ubiquitous trend in this country flooded by discussion more journalistic than scientific on the emergent states it centers on constitutional democracy in Western Europe a region which for a decade and more had been badly neglected by the rampant computerizers Thirdly for the ten countries under discussion Professor Dahl was fortunate to enlist the services of genuine experts the majority of whom are specialists in their field On the whole the volume is one of the major contributions to Comparative Politics that

have appeared in this country for some time The study of the issue as such as well as of the individual reviews is highly rewarding Karl Loewenstein The Annals Kenya National Assembly Official Record (Hansard) ,2004-06-02 The official records of the proceedings of the Legislative Council of the Colony and Protectorate of Kenya the House of Representatives of the Government of Kenya and the National Assembly of the Republic of Kenya *Practical Guide to the NEC3 Professional Services Contract* Michael Rowlinson,2012-05-08 Currently in its third edition the NEC suite has become one of the UK s leading families of standard forms of contract for major construction and civil engineering projects Part of the NEC suite the Professional Services Contract PSC was drafted with the same process based approach and objectives offering a standard contract for the appointment of consultants providing professional services in an engineering or construction project Embodying best practice in terms of project management the basic philosophy of the PSC differs from the principles and approach of other standard contracts used to appoint consultants This book is a practical guide to the application of the PSC Starting with a brief discussion of the background and philosophy behind the PSC it identifies the roles and responsibilities of each of the named functions within the contract explains the approaches required to achieve a successful working relationship between all parties and examines all the procedures in the PSC The book explains the links between the various sections of the contract to assist the reader with cross referencing and covers all the variations created by the Main and Secondary Options As a very practical guide it will aid users in the transition from their use and understanding of the other standard contracts to the collaborative project management based approach of the PSC Written for anyone working in the construction and related industries using the PSC to procure or provide consultancy services in relation to a construction project it will be of interest to the complete construction supply chain particularly architects structural engineers services M E engineers civil engineers quantity surveyors and interior designers together with Contractors and Sub Contractors who have a design liability and employ consultants to assist them It will also be of interest to consultants and lawyers advising any of these parties either in the preparation of contract documentation or the resolution of problem situations which may arise
