The Blue Economy Handbook of the Indian Ocean Region Attri, V.N., Bohler-Muller, Narnia, 2018-08-03 As humanity enters the Anthropocene epoch the oceans are more at risk than ever before as a result of the increased exploitation of its resources The Indian Ocean is the third largest ocean in the world comprising 20% of the water on the Earth's surface The sea lanes in the Indian Ocean are among the busiest in the world with more than 80 percent of global seaborne trade in oil transiting through the Indian Ocean and its vital chokepoints and an estimated 40% of the world's offshore oil production comes from the Indian Ocean The importance of this region cannot be underestimated and there is no doubt that there are many opportunities for economic growth and job creation presented by the waters washing the shores of the Indian Ocean Rim In order to ensure a desirable future for humanity it is necessary to make use of the ocean's resources in a sustainable and responsible manner Climate change is affecting the Indian Ocean negatively placing a strain on the ability to ensure food security and damaging the economies of small island states that depend on fisheries and aquaculture for their livelihoods Increasing ocean temperatures and ocean

acidification are taking a toll on ecosystems This book is the first of its kind providing fresh insights into the various aspects and impacts of the Blue Economy in the Indian Ocean Region from shifting paradigms to an accounting framework gender dynamics the law of the sea and renewable energy this handbook aims at increasing awareness of the Blue Economy in the Indian Ocean Region and to provide evidence to policy makers in the region to make informed decisions The contributions are from a mixture of disciplines by scholars and experts from seven countries **Servamus** ,2007 *Do It!* James Motlatsi,Bobby Godsell,2008 The friendship between Motlatsi former president of the National Union of Mineworkers and Godsell founder and CEO of AngloGoldAshanti and now Chairman of Eskom grew out of troubled times and deep mistrust Their friendship survived setbacks and major challenges Now these friends and proud citizens of South Africa lay out in both inspiration and practice how we citizens can forge together a common dream and a determination to transform our currently troubled country Using personal stories about themselves and one another and using skills that were honed as leaders in their respective organisations Godsell and Motlatsi look into our homes our schools our workplaces our communities and in the public market place of ideas to extract and propose practical ways in which we can become active citizens taking responsibility for change and intervening where government has either chosen not to or where it has not succeeded

Laying the BRICS of a New Global Order Kornegay, Francis A.,Bohler-Muller, Narnia,2013-10-20 The contributions in this compilation on the emergence of a new global order through BRICS serve to illustrate the complexities inherent in the creation of such a coalition alternatively referred to as a grouping association or forum with each country differently situated geo politically as well as ideologically and culturally and in some instances even in conflict with one another in matters of regional peace and security The fact that there are important commonalities of converging interests amongst others the status of emerging economic powers and the furtherance of South South cooperation as well as reforming global governance cannot and should not hide complexities and contradictions These are clearly apparent both within and between the BRICS countries These diversities are also clear from the varied perspectives of the chapter authors in this compilation which is why we have assembled this collection relatively loosely as a means of expressing our intellectual and analytic convergences and divergences within and across BRICS Each chapter contributor writes from a different discipline country and regional perspective and it is this diversity that enriches the debate and conversation As such there remains enormous room for debate on the subject matter of this book and the diverse contributions open up the parameters of the debate even further The aim is to ensure that scholars commentators and practitioners continue to engage critically with theory and practice related to global multilateralism and BRICS in particular **Exploring the link between poverty and human rights in Africa** Edited by Ebenezer Durojaye and Gladys Mirugi-Mukundi,2020-01-01 About the publication This book addresses poverty one of the important issues confronting Africa from a multi disciplinary approach With contributions from eminent scholars from diverse backgrounds the book explores poverty from a human rights perspective Its central message is that

poverty is not necessarily a failure on the part of an individual but rather caused by the actions or inactions of governments which are often exacerbated by structural inequalities in many African societies This in turn requires a more pragmatic approach grounded in respect for human rights Exploring the link between poverty and human rights in Africa will be useful to researchers policymakers students activists and others interested in addressing poverty Table of Contents PREFACE viii ACKNOWLEDGMENTS x CONTRIBUTORS xi
