Third International Conference on Managing Pavements, 1994. The conference objective was to enhance effectiveness and efficiency in managing pavements for roads, streets, airfields and other paved areas. The conference provided an opportunity for executives, practitioners and researchers to share and evaluate recent experiences with pavement management systems. It addressed the benefits of implementation, the effects of support for decision making, advances in the state of the art and in technology and the need for future development. The conference, conducted over three and one half days, included formal paper presentations, workshops and optional tutorials. The conference addressed the following themes: Appropriate Systems; Implementation Issues; Institutional Issues; Managing Information; Analytical Issues; and New Frontiers. Volumes 1 and 2 published prior to the conference include papers to be presented at the conference. Volume 3, published after the conference, contains additional papers presented at the plenary and workshop sessions.

Geometric Design of Roads Handbook Keith Wolhuter, 2015-10-05. Explore the Art and Science of Geometric Design. The Geometric Design of Roads Handbook covers the design of the visible elements of the road: its horizontal and vertical alignments, the cross section, intersections and interchanges. Good practice allows the smooth and safe flow of traffic as well as easy maintenance. Geometric design is covered in detail.

*Sustainable Pavement Maintenance Practices*, 2011. TRB National Cooperative Highway Research Program NCHRP Research Results Digest 365. Sustainable Pavement Maintenance Practices highlights the current practice in sustainable pavement maintenance and preservation. The report is designed to help quantify and understand how pavement maintenance and preservation practices minimize environmental impacts.
