Psychiatric Case Study of a Person with Gender Dysphoria

Psychiatric History

Identification. The patient, R. S., sought consult on 16 September 2014 at the Ateneo de Manila University. She was born on 18 January 1992 (22 years old), to parents R. M. S. and A. J. S., in Quezon City, Philippines. She was assigned the sex male at birth, but currently identifies as a female, making her transgender. She currently lives with her parents and two siblings in Quezon City.

Chief Complaint. Patient: "I never really felt like a boy. I always felt like a girl."

History of Present Illness. The patient reported that she always felt like a female and never a male. She has experienced different kinds of transphobic discrimination (discrimination due to one's identification as transgender) throughout her life. However, she also reported that she never had to come out of the family, because she said, "They just knew," meaning her loved ones simply know that she identifies as a female. She reported taking anti-androgen medication on her own, but later on discontinued use because it was not necessary, because she felt beautiful as a woman already.

Past Psychiatric History. The patient reported no past psychiatric episodes nor symptoms.

Medical History. No major illnesses nor medical conditions were reported.

Family History. The patient reported no psychiatric illnesses within her family. She has two siblings; she is the middle child. She is not close with her older brother, but she mainly interacts with her younger sister. Her parents are currently not on speaking terms, but she does not know why. Despite this, she says that such a system in her family works for the household.

Psychiatric Case Study Examples

Alex N. Sabo, Leston Havens

Psychiatric Case Study Examples:

Psychiatric Mental Health Nursing Made Easy Thorne James Blackwood, Why This Book Throughout my years of experience in both practicing and teaching mental health nursing I've encountered numerous individuals overwhelmed by the intricacies of mental health conditions and the nuances of care required This observation sparked the idea for a resource that could simplify complex concepts and offer practical guidance Mental Health Nursing Made Easy aims to fill this gap by providing a clear concise and engaging exploration of mental health nursing What to Expect The book is structured to guide you through the fundamentals of mental health nursing starting with basic concepts and definitions before moving into more detailed discussions on common mental health disorders therapeutic communication techniques medication management legal and ethical issues and much more Each chapter is crafted with the learner in mind featuring real life case studies interactive questions and key takeaways that reinforce learning and application in clinical settings *Ziskin's Coping with Psychiatric and Psychological Testimony* David Faust, 2012-01-12 This highly effective guide is designed to help attorneys differentiate expert testimony that is scientifically well established from authoritative pronouncements that are mainly speculative Building on the foundation of Jay Ziskin's classic work this updated text blends the best of previous editions with discussion of positive scientific advances in the field to provide practical guidance for experts and lawyers alike Major contributors in the field summarize the state of the literature in numerous key areas of the behavioral sciences and law Working from these foundations the text provides extensive guidance tips and strategies for improving the quality of legal evaluations and testimony appraising the trustworthiness of experts opinions and as follows bolstering or challenging conclusions in a compelling manner Distinctive features of this text include detailed coverage of admissibility and Daubert challenges with unique chapters written by an eminently qualified judge and attorney hundreds of helpful suggestions covering such topics as forensic evaluations discovery and the conduct of depositions and cross examinations and two chapters on the use of visuals to enhance communication and persuasiveness including a unique chapter with over 125 model visuals for cases in psychology and law More than ever the sixth edition is an invaluable teaching tool and resource making it a must have for mental health professionals and attorneys **Case Studies in Psychological Disorders and Their Treatment** Thomas F. Oltmanns, Michele Dawn Tuer, 2024-09 Case Studies in Abnormal Psychology presents actual clinical cases providing developmental histories essential to appropriate diagnosis and treatment of mental disorders This text presents 23 distinct case studies applying abstract theoretical research to real world situations Each study describes the clinical problem demonstrates the formulation and implementation of a treatment plan and discusses evidence of potential causes and prevalence This comprehensive examination includes cases ranging from psychotic and personality disorders including schizophrenia and bipolar disorder to those concerning child development and aging such as attention deficit and hyperactivity disorder Coverage of sometimes controversial subjects including dissociative identity disorder gender

dysphoria autism spectrum disorder and posttraumatic stress disorder ensures contemporary relevance Suitable for undergraduate and graduate study of abnormal psychology this book presents an honest and unbiased view of the limitations and benefits of various treatment plans Discussions of alternative methods including medication electroconvulsive therapy and psychosurgery augment primary cognitive behavioral approaches allowing students a solid foundational knowledge of the subject

The Approved Mental Health Professional's Guide to Psychiatry and Medication Robert Brown, Gwen Adshead, Alan Pollard, 2009-08-07 This book is essential reading for all Approved Mental Health Professionals AMHPs and those students and practitioners on mental health Post Qualifying awards It covers the core competencies of the AMHP and how the use of medication fits within the roles of the mental health professional Fully updated to include aspects of the recently amended Mental Health Act 1983 this guide shows how the law is applied to compulsory administration of medication the law relating to consent to treatment and the relevance to the European Convention on Human Rights

Mental Health Across Cultures Jill Benson, Jill Thistlethwaite, Pascale Moore, 2018-10-08 Every health professional interacts with patients from different cultures to their own not just those from different countries ethnic or religious groups but also those with cultural differences due to sexual orientation lifestyle beliefs age gender social status or perceived economic worth The potential for confusions in communication and consequent problems are even greater in primary care mental health than in other areas This guide for all health professionals provides a model for working in mental health across cultures and outlines practical ways of using psychotherapy skills across cultures It can be used as personal preparation by individuals in any primary care setting at home or abroad or as a teaching tool for use with health professionals travelling to another culture including overseas aid workers and those moving to a new country It is also of great value to everyone interested in transcultural medicine Wherever we work whoever we are we are working across cultures often without realising it The first step is to become conscious of this fact The next step is to read this book Jill Benson and Jill
