the people belonging to the lower classes of society as well as women from reading the Bible rather suggests that there already existed a number of these folks actively engaged in reading The Act did not ban the works of Chaucer and Gower and stories of men's lives good reading for them The successive sovereigns' educational policies also contributed to rising literacy This trend was speeded up by London's growing population which invited the rise of commercial playhouses since 1567 Every citizen saw on average about seven performances every year that is about three per cent of London's population saw a performance a day From 1586 onwards merchants' appearance in best seller literature began to increase while stage representation of reading writing scenes also increased and stimulated audiences towards reading This was spurred by standardisation of the printing format of playbooks in the early 1580s and play minded readers went to playbooks eventually to create a class of playbook readers Late in the 1590s at last playbooks matched with prose writings in ratio to all publications Parts I and II of this book discuss these topics in numerical terms as much as possible and Part III discusses some monumental characteristics of contemporary readers of Chapman Ford Marston and Shakespeare A Commentary on the Holy Scriptures Johann Peter Lange, Philip Schaff, 1877 Hours with the Mystics Robert Alfred Vaughan, 1856
