 Lowe,Tony Joel,2014-01-21 Remembering the Cold War examines how more than two decades since the collapse of the Soviet  
 Union Cold War legacies continue to play crucial roles in defining national identities and shaping international relations  
 around the globe Given the Cold War s blurred definition it has neither a widely accepted commencement date nor  
 unanimous conclusion what is to be remembered This book illustrates that there is in fact a huge body of remembrance and  
 that it is more pertinent to ask what should be included and what can be overlooked Over five sections this richly illustrated  
 volume considers case studies of Cold War remembering from different parts of the world and engages with growing  
 theorisation in the field of memory studies specifically in relation to war David Lowe and Tony Joel afford careful  
 consideration to agencies that identify with being victims of the Cold War In addition the concept of arenas of articulation  
 which envelops the myriad spaces in which the remembering commemorating memorialising and even revising of Cold War  
 history takes place is given prominence     **Approach** ,1985 The naval aviation safety review     **The Interregnum:**

 in World Politics 1989 1999 is a series of critical reflections on the major controversies in and about world politics in the  
 1990s We are living in an era which seemingly defies description in social and political theory our age is frequently referred

to as post modern in international relations we remain in the post Cold War age The age is only characterised by what it is not This collection of critical reflections written by leading scholars in the field sheds light on the meanings of world politics in what we are calling The Interregnum The central question of the Special Issue might be put as follows what do the major controversies in world politics in the 1990s tell us about the characteristics of the age who we are and where world politics might be going     Millennial Reflections on International Studies Michael Brecher, Frank P. Cerami, James F. Holcomb, 2001 For more than 3 decades the U S Army War College USAWC Department of National Security and Strategy has faced the challenge of educating future strategic leaders on the subject of national security or grand strategy Fitting at the top of an officer s or government official s career long professional development program this challenge has been to design a course on strategy that incorporates its many facets in a short period of time all within the 1 year senior service college curriculum To do this a conceptual approach has provided the framework to think about strategy formulation The purpose of this volume is to present the USAWC strategy formulation model to students and practitioners This book serves as a guide to one method for the formulation analysis and study of strategy an approach which we have found to be useful in providing generations of strategists with the conceptual tools to think systematically strategically critically creatively and big Balancing what is described in the chapters as ends ways and means remains at the core of the Army War College s approach to national security and military strategy and strategy formulation     **U.S. Army War College Guide to Strategy** ,     ENC Focus ,     *Military Review* , 1991     *Partnerships with Business and the Community* , 2001     Balancing Risks Jeffrey W. Taliaferro, 2019-06-30 Great powers often initiate risky military and diplomatic inventions in far off peripheral regions that pose no direct threat to them risking direct confrontation with rivals in strategically inconsequential places Why do powerful countries behave in a way that leads to entrapment in prolonged expensive and self defeating conflicts Jeffrey W Taliaferro suggests that such interventions are driven by the refusal of senior officials to accept losses in their state s relative power international status or prestige Instead of cutting their losses leaders

often continue to invest blood and money in failed excursions into the periphery Their policies may seem to be driven by rational concerns about power and security but Taliaferro deems them to be at odds with the master explanation of political realism Taliaferro constructs a balance of risk theory of foreign policy that draws on defensive realism in international relations and prospect theory in psychology He illustrates the power of this new theory in several case narratives Germany's initiation and escalation of the 1905 and 1911 Moroccan crises the United States involvement in the Korean War in 1950 52 and Japan's entanglement in the second Sino Japanese war in 1937 40 and its decisions for war with the U S in 1940 41
