Some Notes On Java And Its Administration By The Dutch:

Some Notes on Java and Its Administration by the Dutch Henry Scott Boys, 1892 This modestly entitled work by a former member of the Bengal Civil Service is in fact more like a well researched essay than a miscellaneous collection of notes It pays considerable attention to Java s history though its coverage is rather patchy by modern standards and many names are mis spelled It has a few interesting insights on the situation at the time of the author s visit 1889 such as the prosperous appearance of the Javanese especially the children the domination of trade by women and the absence of any sign of Islam But its main interest is the author s favorable opinion of the economic management of Java by the Dutch as compared with the British in India He particularly commends the Dutch refusal to introduce individual property rights to land He does predict however correctly that the growth of Java s population will lead to economic problems in the future He is also unusual among British colonial administrators of the 19th century in suggesting that the Western way of doing things is not invariably the best one
