Karin Kukkonen

Sometimes Moments English Edition:

The Gramscian Moment Peter Thomas, 2009-07-31 Winner of the Premio internazionale Giuseppe Sormani 2011 awarded by the Fondazione Istituto Piemontese Antonio Gramsci in Turin for the best book article on Gramsci in the period between 2007 2011 internationally Antonio Gramsci's Prison Notebooks are today acknowledged as a classic of the human and social sciences in the twentieth century The influence of his thought in numerous fields of scholarship is only exceeded by the diverse interpretations and readings to which it has been subjected resulting in often contradictory images of Gramsci This book draws on the rich recent season of Gramscian philological studies in order to argue that the true significance of Gramsci's thought consists in its distinctive position in the development of the Marxist tradition Providing a detailed reconsideration of Gramsci's theory of the state and concept of philosophy The Gramscian moment argues for the urgent necessity of taking up the challenge of developing a philosophy of praxis as a vital element in the contemporary revitalisation of Marxism

Hamlet's Moment András Kiséry, 2016-04-28 Hamlet's Moment identifies a turning point in the history of English drama and early modern political culture the moment when the business of politics became a matter of dramatic representation Drama turned from open military conflict to diplomacy and court policy from the public contestation of power to the technologies of government Tragedies of state turned into tragedies of state servants inviting the public to consider politics as a profession to imagine what it meant to have a political career By staging intelligence derived from diplomatic sources and by inflecting the action and discourse of their plays with a Machiavellian style of political analysis playwrights such as Shakespeare Jonson Chapman and Marston transformed political knowledge into a more broadly useful type of cultural capital something even people without political agency could deploy in conversation and use in claiming social distinction In Hamlet's moment the public stage created the political competence that enabled the rise of the modern public sphere

The Anglo-Dutch Moment Jonathan Irvine Israel, 2003-10-30 This book sets the Glorious Revolution in its full British European and American context and to show how fundamentally our picture of the English Revolution as well as of the Revolutionary process of 1688 91 is now being transformed

Decolonial Aesthetics II Patrick Oloko, Michaela Ott, Peter Simatei, Clarissa Vierke, 2023-06-27 This book features writing by 17 authors from Germany and from African and Latin American countries on highly diverse aesthetic phenomena as seen from their own different points of view The texts in this volume all deal with the imperative of decolonization they try to highlight aesthetic strategies for the re-discovery of unthematized misappropriated transcultural and even transcontinental histories and memories and aesthetic practices that are absent from or too little perceived within national consciousnesses Novels poems and musical performances from the East African region are analysed as intertwined histories of the Indian Ocean and its different languages Artworks of the Black Atlantic and perceptions of Africa are discussed from for example Brazilian perspectives Within the German context decolonisation strategies in exhibition practices in ethnological or art museums developed by Nigerian artists are evaluated

new terms such as dividuality are proposed to describe these contemporary composite cultural entanglements and so on A stimulating wide ranging and heterogeneous portrait of contemporary interwoven world cultures *Glossator*

Øverenget,2013-12-01 die Augen hat mir Husserl eingesetzt 1 he aim of Twentieth century phenomenology is to provide a non T psychologistic interpretation of subjectivity Husserl agrees with Frege to adopt psychologism is to give up truth But this should not prevent us from investigating the subjective perspective On the contrary Husserl thinks that an appropriate rejection of psychologism must be able to show how propositions are correlated to and grounded in subjective intuitions without thereby reducing them to psychological phenomena Obviously this calls for an interpretation of subjectivity that makes a sharp distinction between the subjective perspective and the psychological realm Phenomenology is devoted to the development of a notion of subjectivity that is in accordance with our experience of the world A fundamental tenet of phenomenology is that philosophy should not dispute this experience but rather account for it Hence phenomenology must avoid a notion of subjectivity in which it becomes a problem to account for how a subject can ever hook up with the world In other words a phenomenological interpretation of subjectivity must radically disassociate itself from what is often referred to as a worldless Cartesian subject a res cogitans But neither can an interpretation of Subjectivity consistently advocate a position according to which the human order is described only in the categories appropriate to the physical order Such an interpretation is obviously not compatible with the phenomenal basis for undertaking this very interpretation that is our experience of the world Translation and Own-language Activities Philip Kerr,2014-03-27 Translation and Own language

Activities provides structured practical advice and guidance for using students own languages within the ELT classroom Translation and Own language Activities provides structured practical advice and guidance for using students own languages within ELT classrooms Taking into account both the growing interest and concerns about use of translation in English lessons the book presents effective ways of integrating carefully chosen activities covering themes such as tools language skills language focus and techniques The practical activities range from using bilingual dictionaries to translating long texts with a number of tasks drawing on easy to use web tools The book also considers the relationship between translation and intercultural understanding **Translation als Gestaltung** Mira Kadric,Waltraud Kolb,Sonja Pöllabauer,2024-03-04 Dieser Band pr sentiert Beitr ge namhafter Autor innen zur translatorischen Theorie und Praxis Die Themen reichen von der Ausgestaltung der Disziplin unter anderem mit Blick auf zentrale Grundfragen des bersetzens Aspekte von Multimodalit t und soziokognitive Translationsprozesse bis hin zu Studien aus dem Feld der Literary Translator Studies in denen bersetzer innen als Gestalter innen im Zentrum stehen Weitere Abschnitte widmen sich dem weiten Feld der literarischen bersetzung mit Fallstudien zu bersetzungen aus verschiedenen Genres Belletristik Lyrik Theatertexte Operntexte Jugendliteratur Comics sowie dem Wirken von fiktionalen Translator innen in Film und Literatur Ein pers nlicher Nachklang mit Fokus auf dem

Literature and Religion Ou Guang-an, David Jasper, 2022-07-28 How does one culture read another In Literature and Religion two scholars one from China and one from the West each read texts from the other s culture as a means of dialogue A key issue in such an enterprise is the nature of religion and what we understand by that term in a world in which ancient religious customs seem to be dying or under threat Does a comparative study of religious literature offer a way towards mutual understanding or merely illustrate our differences Underpinned by their own friendship these two partners in conversation show what is possible

Ancestry of Experience Leilani Holmes, 2016-08-31 As Hawaiians continue to recover their language and culture the voices of kupuna elders are heard once again in urban and rural settings both in Hawai i and elsewhere How do kupuna create knowledge and tell history What do they tell us about being Hawaiian Adopted by a Midwestern couple in the 1950s as an infant Leilani Holmes spent much of her early life in settings that offered no clues about her Hawaiian past images of which continued to haunt her even as she completed a master s thesis on Hawaiian music and identity in southern California Ancestry of Experience documents Holmes quest to reclaim and understand her own origin story Holmes writes in two different and at times incongruent voices one describing the search for her genealogy the other critiquing Western epistemologies she encounters along the way In the course of her journey she finds that Hawaiian oral tradition links identity to the land aina through ancestry while traditional scholarly theories of knowing particularly political economy and the discourse of the invention of tradition textually obliterate land and ancestry In interviews with kupuna Holmes learns of the connectedness of spirituality and aina through her study and practice of hula kahiko comes an understanding of ancient hula as a conversation between aina and the dancer s body that has the power to activate historical memory Holmes experience has special relevance for indigenous adoptees and indigenous scholars Both are distanced from the knowledge agendas and strategies of their communities and are tasked to speak in languages ill suited to the telling of their own stories and those of their ancestors In addition to those with an interest in Hawaiian knowledge and culture Ancestry of Experience will appeal to readers of memoirs of identity academic and personal accounts of racial identity formation and works of indigenous epistemologies A website www.ancestryofexperience.com will include supplementary material

Modern Religion, Modern Race Theodore M. Vial,2016 Religion is a racialized category even when race is not explicitly mentioned In Modern Religion Modern Race Theodore Vial

argues that because the categories of religion and race are rooted in the post Enlightenment project of reimagining what it means to be human we cannot simply will ourselves to stop using them Only by acknowledging that religion is already racialized can we begin to understand how the two concepts are intertwined and how they operate in our modern world It has become common to argue that the category religion is not universal or even very old but is a product of Europe s Enlightenment modernization Equally common is the argument that religion is not an innocent category of analysis but is implicated in colonial regimes of control and as such plays a role in Europe s process of identity construction of itself and of non European others Current debates about race follow an eerily similar trajectory race is not an ancient but a modern construction It is part of the project of colonialism and race discourse forms one of the cornerstones of modern European identity making Why can t we stop using them or re construct them in less toxic ways By examining the theories of Kant Herder and Schleiermacher among others Vial uncovers co constitutive nature of race and religion describes how they became building blocks of the modern world and shows how the two concepts continue to be used today to form identity and to make sense of the world He shows that while we disdain the racist language of some of the founders of religious studies the continued influence of the modern worldview they helped create leads us often unwittingly to reiterate many of the same distinctions and hierarchies Although it may not be time to abandon the very category of religion with all its attendant baggage Modern Religion Modern Race calls for us to examine that baggage critically and to be fully conscious of the ways in which religion always carries with it dangerous ideas of race

Young Refugees and Asylum Seekers

Declan Henry,2025-02-28 There are many misconceptions about young refugees and asylum seekers in Britain Declan Henry dispels the myths and gives a compassionate and empathetic view of the daily struggles they face including discrimination racism and poverty This book explores the reasons why they came to the UK and the safeguarding issues involved the services they receive and the gaps and inequalities in the system as a whole The injustice of long Home Office delays in the processing of applications and appeal processes are outlined and as it is becoming more difficult for many young people to get Leave to Remain the impact on their lives in terms of accommodation education and planning for the future are explored The author also looks at the emotional and mental health needs of young people including those with undiagnosed learning needs and difficulties Ultimately the book paints a graphic picture of what life is like in Britain for young people cut off from their country of their origin and families and how they are expected to make a new life in Britain with limited resources There are works of non fiction that are not only timely but also extremely important Young Refugees And Asylum Seekers by author Declan Henry is one of them The refugee crisis and the plight of children and young adults is brought into sharp focus in this powerful

challenging and well written book With precision this author highlights both the lack of resources and unfair treatment of those who enter a new country without a caregiver as well as the monumental efforts of good people who work within a challenging system to exact change while practicing kindness The importance of seeing children as children first is at the core of this valuable book And we are reminded that the way we treat the most vulnerable is a testament to who we are fundamentally as human beings and a society I highly recommend this book to anyone who wants to better understand the refugee crisis and to those in search of an opportunity to make a difference Nancy Richardson Fischer author of *When Elephants Fly* *The Speed of Falling Objects* Studying Comics and Graphic Novels Karin Kukkonen, 2013-09-10 This introduction to studying comics and graphic novels is a structured guide to a popular topic It deploys new cognitive methods of textual analysis and features activities and exercises throughout Deploys novel cognitive approaches to analyze the importance of psychological and physical aspects of reader experience Carefully structured to build a sequenced rounded introduction to the subject Includes study activities writing exercises and essay topics throughout Dedicated chapters cover popular sub genres such as autobiography and literary adaptation
