This new Encyclopedia provides leaders with the historical perspective and a vision of the tenuous future so essential if leaders of the future are to redefine leadership on their own terms with their own people. From the earliest times, people have been entranced by stories about leaders: about Greek city-state rulers, Roman consuls, Chinese emperors, religious potentates, military conquerors, and politicians. Perhaps more importantly, leadership is a challenge and an opportunity facing millions of people in their professional and personal lives. The Encyclopedia of Leadership brings together for the first time everything that is known and truly matters about leadership as part of the human experience. Developed by the award-winning editorial team at Berkshire Publishing Group, the Encyclopedia includes hundreds of articles written by 280 leading scholars and experts from 17 countries exploring leadership theories and leadership practice. Entries and sidebars show leadership in action in corporations and state houses, schools, churches, small businesses, and nonprofit organizations. Questions the Encyclopedia of Leadership will answer: What is a leader? What is a great leader? How does someone become a leader? What are the types of leadership? How can leadership theories help us understand contemporary situations? How can I be a good and maybe great leader? The Encyclopedia of Leadership is an unprecedented learning resource. Scholars, students, professionals, and active citizens will turn to the Encyclopedia for guidance on the theory and practice of leadership, for the stories of great leaders, and for the tools and knowledge they need to lead in the 21st century.
