One-Day, One-Problem Glen O'Grady, Elaine Yew, Karen P.L. Goh, Henk Schmidt, 2012-04-12 One day one problem is a unique adaptation of problem based learning PBL pioneered at Republic Polytechnic Singapore Here students are challenged each day with a problem from their domain and attain the necessary learning outcomes in the process of responding to the problem Throughout the day students would engage in small group discussions self directed learning and conversations with their teacher who plays the role of a facilitator This approach to learning and instruction represents a new brand of constructivist learning in a more structured

learning environment compared to conventional PBL This book contains a series of chapters by authors with first hand experience in the One day one problem PBL approach Unlike other books on PBL the chapters are both research informed and practical Results of empirical studies into the factors of PBL such as quality of problems tutor behaviours scaffoldings student learning and interest are discussed together with practical implications for the educator The book begins with an overview of the one day one problem process providing a viewpoint from both the student and tutor Republic Polytechnic s pedagogical philosophy and epistemological belief of education are introduced with the intent to share how the polytechnic designed and implemented a system that supports the philosophical beliefs Results and practical implications of empirical studies on the various factors that influence students learning in PBL are discussed These include the quality of problems and the use of scaffoldings for students learning tutors as facilitators preparation of staff for PBL student assessment how students learn in the process of PBL and student interest

Problem Posing Stephen I. Brown, Marion I. Walter, 2014-01-14

As a result of the editors collaborative teaching at Harvard in the late 1960s they produced a ground breaking work *The Art Of Problem Posing* which related problem posing strategies to the already popular activity of problem solving It took the concept of problem posing and created strategies for engaging in that activity as a central theme in mathematics education Based in part upon that work and also upon a number of articles by its authors other members of the mathematics education community began to apply and expand upon their ideas This collection of thirty readings is a testimony to the power of the ideas that originally appeared In addition to reproducing relevant materials the editors of this book of readings have included a considerable amount of interpretive text which places the articles in the context of problem solving While the preponderance of essays focus upon mathematics and mathematics education some of them point to the relevance of problem posing to other fields such as biology or psychology In the interpretive text that accompanies each chapter they indicate how ideas expressed for one audience may be revisited or transformed in order to ready them for a variety of audiences
