Resources in Education ,2001-04 *Children's Reading Comprehension and Assessment* Scott G. Paris,Steven A. Stahl,2005-03-23 Originating in a recent CIERA conference held at the University of Michigan this book brings together the nation s most distinguished researchers to examine how readers understand text and how comprehension is assessed The first part provides both national and historical contexts for the study of reading comprehension The second part examines how vocabulary motivation and expertise influence comprehension and it includes analyses of the developmental course and correlates of comprehension Chapters in the third part consider how schools focus on comprehension for instruction and assessment The fourth part includes chapters on large scale assessment that analyze how test formats and psychometric characteristics influence measures of reading comprehension At the end of each part is a commentary written by an expert that reviews the chapters critiques the main points and synthesizes critical issues Key features of this outstanding new book include Integration of Research and Practice provides a bridge between conceptual issues studied by researchers concerned with reading comprehension theories and practical issues addressed by educators concerned with classroom instruction and assessment Comprehension Focus provides a thorough history and rigorous research based analyses of reading comprehension Assessment Focus provides innovative approaches to comprehension assessment that include the influences of vocabulary decoding and motivation Synthetic Commentaries provides periodic summaries that analyze and synthesize research practices and issues discussed in each part Expertise contributing authors and commentators are highly respected authorities on reading comprehension see table of contents This text is appropriate for educational and psychological researchers reading educators and graduate students in education and psychology It is part of the CIERA series which includes the following volumes Taylor and Pearson Teaching Reading Effective Schools Accomplished Teachers 2002 Van Kleeck Stahl and Bauer On Reading Books to Children Parents and Teachers 2003 Hoffman and Schallert The Texts in Elementary Classrooms 2005 **Connections** ,1999 **Goals 2000** ,1996 Congressional Record United States. Congress,2000 Excellence Gaps in Education Jonathan A. Plucker,Scott J. Peters,2020-01-15 2017 Texas Association for Gifted and Talented Legacy Scholar Book Award 2017 National Association of Gifted Children Scholar Book of the Year Award In Excellence Gaps in Education Jonathan A Plucker and Scott J Peters shine a spotlight on excellence gaps the achievement gaps among subgroups of students performing at the highest levels of achievement Much of the focus of recent education reform has been on closing gaps in achievement between students from different racial ethnic or socioeconomic backgrounds by bringing all students up to minimum levels of proficiency Yet issues related to excellence gaps have been largely absent from discussions about how to improve our schools and communities Plucker and Peters argue that these significant gaps reflect the existence of a persistent talent underclass in the United States among African American Hispanic Native American and poor students resulting in an incalculable loss of potential among our fastest growing populations

Drawing on the latest research and a wide range of national and international data the authors outline the scope of the problem and make the case that excellence gaps should be targeted for elimination They identify promising interventions for talent development already underway in schools and provide a detailed review of potential strategies including universal screening flexible grouping targeted programs and psychosocial interventions Excellence Gaps in Education has the potential for changing our national conversation about equity and excellence and bringing fresh attention to the needs of high potential students from underrepresented backgrounds With Literacy and Justice for All Carole Edelsky,2006 The third edition of With Literacy and Justice for All Rethinking the Social in Language and Education continues to document Carole Edelsky s long involvement with socially critical holistic approaches to the everyday problems and possibilities facing teachers of language and literacy This book helps education professionals understand the educational societal situations they are dealing with and literacy instruction and second language learning in particular contexts Edelsky does not offer simplistic pedagogical formulas but rather progressively works through differences and tensions in the discourses and practices of sociolinguistics bilingual education whole language and critical pedagogy fields whose practitioners and advocates too often work in isolation from each other and at times at cross purposes In this edition what Edelsky means by rethinking is improving and extending her own views while at the same time demonstrating that such rethinking always occurs in the light of history The volume includes a completely new Introduction and two entirely new chapters one on reconceptualizing literacy learning as second language learning and another on taking a historical view of responses to standardized testing Throughout in updating the volume Edelsky uses a variety of structural styles to note contrasts in her views across time and to make the distinction clear between the original material and the current additions This edition is a rare example of a scholarly owning up to changes in thinking and a much needed demonstration of the historically grounded nature of knowledge As a whole the third edition emphasizes recursiveness and questioning within a deliberately political framework
