P. Weiner,2024-07-15 Teaching a Dark Chapter explores how textbook narratives about the Fascist Nazi past in Italy East Germany and West Germany followed relatively calm undisturbed paths of little change until isolated flashpoints catalyzed the educational infrastructure into periods of rapid transformation Though these flashpoints varied among Italy and the Germanys they all roughly conformed to a chronological scheme and permanently changed how each dark past was represented Historians have often neglected textbooks as sources in their engagement with the reconstruction of postfascist states and the development of postwar memory culture But as Teaching a Dark Chapter demonstrates textbooks yield new insights and suggest a new chronology of the changes in postwar memory culture that other sources overlook Employing a methodological and temporal rethinking of the narratives surrounding the development of European Holocaust memory Daniela R P Weiner reveals how long before 1968 textbooks in these three countries served as important tools to influence public memory about Nazi Fascist atrocities As Fascism had been spread through education then education must play a key role in undoing the damage Thus to repair and shape postwar societies textbooks became an avenue to inculcate youths with desirable democratic and socialist values Teaching a Dark Chapter weds the historical study of public memory with the educational study of textbooks to ask how and why the textbooks were created what they said and how they affected the society around them **Genetic Criticism** Jed Deppman,Daniel Ferrer,Michael Groden,2004-04-14 A valuable introduction to the possibilities and perspectives opened up by the study of literary manuscripts and will leave readers curious to discover more about this important and growing field Romanic Review *The Diary of Anne Frank* Christopher Martin,1989 Part of a series of magazine style books on popular texts for GCSE this book deals with The Diary of Anne Frank It encourages pupils to become actively involved in researching

the texts and in exploring their own responses *Exploring Anne Frank and Difficult Life Stories* Kirsten Kumpf Baele, Waltraud Maierhofer, Doyle Stevick, 2024-09-19 This volume grounded in the Diary of a Young Girl and its continued appeal to readers of all ages sees both promise in the relevance of Anne Frank's story in the twenty first century and potential for new ways of teaching her story and those of other genocides and human right violations Engaging Anne Frank with these other cases clarifies the distinct nature of the Holocaust and we build on the fact that the diary touches areas of deep interest especially to young people and that it has been read as a monument to resisting hate which is itself a prerequisite for educating citizens of more diverse and inclusive societies The diverse contributions and viewpoints in this volume illustrate how rich the ongoing engagement with Anne Frank and her legacy remain **Disha Combo (4 Books) 30**
