Maladaptive Consumer Behavior Ingrid M. Martin, David W. Stewart, 2024-07-29 This edited volume provides a marketing perspective on maladaptive consumer behavior especially behavior with dysfunctional consequences that does not have its origins in physical addiction It brings together contributions of leading scholars who have expertise in various forms of maladaptive consumption The chapters address specific manifestations of maladaptive consumption such as those related to food alcoholic beverages online gaming and media consumption among others with an emphasis on behaviors that are not traditionally regarded as arising from physical addiction Further the book includes chapters that focus more broadly of definitional and conceptual issues methodological approaches implications for intervention and regulation and the value judgments inherent in the identification and classification of behaviors as maladaptive It examines numerous alternative theories of maladaptive consumption and places such behavior in a larger market context Taken together the contributions in this volume 1 describe the general phenomenon of maladaptive consumption 2 describe specific manifestations of maladaptive consumption 3 identify issues of research methodology and definition related to the study of maladaptive consumption and 4 address relevant interventions regulations and public policy issues It will appeal to scholars interested in maladaptive consumption behaviors and their treatments as well as consumer behavior more generally across multiple fields including marketing clinical psychology social work and public health *The Oxford Handbook of Hoarding and Acquiring* Randy O. Frost, Gail Steketee, 2014 Hoarding involves the acquisition of and inability to discard large numbers of possessions that clutter the living area of the person collecting them It becomes a disorder when the behavior causes significant distress or interferes with functioning Hoarding can interfere with activities of daily living such as being able to sit in chairs or sleep

in a bed work efficiency family relationships as well as health and safety Hoarding behavior can range from mild to life threatening Epidemiological findings suggest that hoarding occurs in 2.6% of the adult population making it two to three times more common than obsessive compulsive disorder The fifth edition of the Diagnostic and Statistical Manual of Mental Disorders DSM 5 now includes Hoarding Disorder as a distinct disorder within the OCD and Related Anxiety Disorders section creating a demand for information about it The Oxford Handbook of Hoarding and Acquiring is the first volume to detail the empirical research on hoarding Including contributions from all of the leading researchers in the field this comprehensive volume is divided into four sections in addition to introductory and concluding chapters by the editors Phenomenology Epidemiology and Diagnosis Etiology Assessment and Intervention and Hoarding in Special Populations The summaries of research and clinical interventions contained here clarify the emotional and behavioral features diagnostic challenges and nature of the treatment interventions for this new disorder This handbook will be a critical resource for both practitioners and researchers including psychiatrists psychologists neurologists epidemiologists social workers occupational therapists and other health and mental health professionals who encounter clients with hoarding problems in their practice and research

Compulsive Buying Astrid Müller, James E. Mitchell, 2011-01-07 Rooted in research and clinical practice *Compulsive Buying* examines the drive that compels people to compulsively purchase and hoard their acquisitions The authors and contributors cover the entire scope of this behavior and discuss what clinicians need to know in order to better understand and treat their clients Among the key subjects examined are case reports correct diagnosis assessment and instruments comorbidity treatment research and directions for future research The book ends with a useful guide for therapists which includes data and research and a treatment manual which includes questionnaires and exercises for clinician and client alike

The Oxford Handbook of Impulse Control Disorders Jon E. Grant, Marc N. Potenza, 2012 Research in the area of impulse control disorders has expanded exponentially The Oxford Handbook of Impulse Control Disorders provides researchers and clinicians with a clear understanding of the developmental biological and phenomenological features of a range of impulse control disorders as well as detailed approaches to their treatment

[The Interdisciplinary Science of Consumption](#) Stephanie D. Preston, Morten L. Kringelbach, Brian Knutson, 2014-08 Scholars from psychology neuroscience economics animal behavior and evolution describe the latest research on the causes and consequences of overconsumption Our drive to consume our desire for food clothing smart phones and megahomes evolved from our ancestors drive to survive But the psychological and neural processes that originally evolved to guide mammals toward resources that are necessary but scarce may mislead us in modern conditions of material abundance Such phenomena as obesity financial bubbles hoarding and shopping sprees suggest a mismatch between our instinct to consume and our current environment This volume brings together research from psychology neuroscience economics marketing animal behavior and evolution to explore the causes and consequences of consumption Contributors consider such topics as

how animal food storing informs human consumption the downside of evolved fast and frugal rules for eating how future discounting and the draw toward immediate rewards influence food consumption addiction and our ability to save overconsumption as social display and the policy implications of consumption science Taken together the chapters make the case for an emerging interdisciplinary science of consumption that reflects commonalities across species domains and fields of inquiry By carefully comparing mechanisms that underlie seemingly disparate outcomes we can achieve a unified understanding of consumption that could benefit both science and society

Comorbid Eating Disorders and Obsessive-Compulsive Disorder Jenna DiLossi, Melissa Harrison, 2023-12-21 Numerous studies have shown that individuals with eating disorders EDs have statistically higher rates of OCD and vice versa yet there has been no comprehensive book dedicated to their comorbidity This clinical guide fills that gap and provides a tool for health professionals working with patients presenting with both diagnoses This book reviews the existing literature on the comorbidity of these disorders and the perspectives of the authors clinical practice working with OCD and EDs Chapters cover clinical pitfalls assessment and suggested treatments detailing the overlap between both illnesses and how comorbidity changes the overall presentations The authors provide evidence informed clinical suggestions for existing treatments in addition to several case study examples to highlight ways in which to better improve care for patients A must read for clinicians who have either experience with or want to expand their knowledge on how to assess and treat the co occurrence of OCD and EDs

Consumer Behavior over the Life Course George P. Moschis, 2019-01-31 This book examines consumer behavior using the life course paradigm a multidisciplinary framework for studying people s lives structural contexts and social change It contributes to marketing research by providing new insights into the study of consumer behavior and illustrating how to apply the life course paradigm s concepts and theoretical perspectives to study consumer topics in an innovative way Although a growing number of marketing researchers either implicitly or explicitly subscribe to life course perspectives for studying a variety of consumer behaviors their efforts have been limited due to a lack of theories and methods that would help them study consumers over the lifecycle When studying consumers over their lifespan researchers examine differences in the consumer behaviors of various age groups e g children baby boomers elderly etc or family life stages e g bachelors full nesters empty nesters etc inferring that consumer behavior changes over time or linking consumption behaviors to previous experiences and future expectations Such efforts however have yet to benefit from an interdisciplinary research approach This book fills this gap in consumer research by informing readers about the differences between some of the most commonly used models for studying consumers over their lifespan and the life course paradigm and providing implications for research public policy and marketing practice Presenting applications of the life course approach in such research topics as decision making maladaptive behaviors e g compulsive buying binge eating consumer well being and cognitive decline this book is beneficial for students scholars professors practitioners and policy makers in consumer behavior consumer research consumer

psychology and marketing research Goal-Directed Decision Making Richard W. Morris, Aaron Bornstein, Amitai Shenhav, 2018-08-23 Goal Directed Decision Making Computations and Neural Circuits examines the role of goal directed choice It begins with an examination of the computations performed by associated circuits but then moves on to in depth examinations on how goal directed learning interacts with other forms of choice and response selection This is the only book that embraces the multidisciplinary nature of this area of decision making integrating our knowledge of goal directed decision making from basic computational clinical and ethology research into a single resource that is invaluable for neuroscientists psychologists and computer scientists alike The book presents discussions on the broader field of decision making and how it has expanded to incorporate ideas related to flexible behaviors such as cognitive control economic choice and Bayesian inference as well as the influences that motivation context and cues have on behavior and decision making Details the neural circuits functionally involved in goal directed decision making and the computations these circuits perform Discusses changes in goal directed decision making spurred by development and disorders and within real world applications including social contexts and addiction Synthesizes neuroscience psychology and computer science research to offer a unique perspective on the central and emerging issues in goal directed decision making *Abnormal Psychology* Ann M.
