Place Meant G. V. Loewen, 2014-12-16 What does place mean for human beings What does it mean to exist in space How do we place ourselves not only in physical space but within the interior landscape of consciousness Place Meant is an interdisciplinary exploration of these and related questions through the lenses of psychoanalysis sociology anthropology geography folklore memoir and the history of ideas It will be of interest to anyone who has traveled the earth and pondered their relationship to home away and the world at large *Landscape and the Visual Hermeneutics of Place, 1500-1700* Karl A.E. Enenkel, Walter Melion, 2020-12-29 This volume examines the image based methods of interpretation that pictorial and literary landscapists employed between 1500 and 1700 The seventeen essays ask how landscape construed as the description of place in image and or text more than merely inviting close viewing was often seen to call for interpretation or better for the application of a method or principle of interpretation Contributors Boudewijn Bakker William M Barton Stijn Bussels Reindert Falkenburg Margaret Goehring Andrew Hui Sarah McPhee Luke Morgan Shelley Perlove Kathleen P Long Lukas Reddemann Denis Ribouillault Paul J Smith Troy Tower and Michel Weemans *Place, Space and Hermeneutics* Bruce B. Janz, 2017-03-29 This book analyzes the hermeneutics of place raising questions about central issues such as textuality dialogue and play It discusses the central figures in the development of hermeneutics and place and surveys disciplines and areas in which a hermeneutic approach to place has been fruitful It covers the range of philosophical hermeneutic theory both within philosophy itself as well as from other disciplines In doing so the volume reflects the state of theorization on these issues and also looks forward to the implications and opportunities that exist Philosophical hermeneutics has fundamentally altered philosophy's approach to place Issues such as how we dwell in place how place is imagined created preserved and lost and how philosophy itself exists in place have become central While there is much research applying hermeneutics to place there is little which both reflects on that heritage and critically analyzes a hermeneutic approach to place This book fills that void by offering a sustained analysis of the central elements major figures and disciplinary applications of hermeneutics and place *Philosophical Hermeneutics and the Architecture of Álvaro Siza* Sally J. Faulder, 2024-12-30 This book presents an original study of the work of Pritzker Prize winning Portuguese architect Ivaro Siza from the perspective of architecture as an interpretation of human life It combines philosophical hermeneutics narrative textual description and history and theory research to provide a rich account of Siza's work The book gives a detailed analysis of three of Siza's works from this perspective the Tidal Pool Piscina das Mar's in Le a da Palmeira Portugal the Galician Centre of Contemporary Art Centro Galego de Arte Contemporanea in Santiago de Compostela Spain and the Santa Maria Church in Marco de Canaveses Portugal This form of analysis provides insight into the unique temporal dimension of Siza's work both in the memory inscribed by the structure and in how what is inscribed is revealed by degrees to those who come into contact with it Drawing on Hans Georg Gadamer and Paul Ricoeur this book defines both building and inhabiting

as acts of interpretation Through employing the technique of writing architecture as a mode of phenomenological description the book uses one form of creative configuration narrative to draw out the meaning inscribed in another form of creative configuration architecture The book contributes a unique perspective to scholarship on Siza and an in depth study to the growing field of hermeneutics of architecture It will be of interest to researchers and students of architecture and philosophy

Hermeneutics of Human-Animal Relations in the Wake of Rewilding Mateusz Tokarski,2019-05-21 In consequence of significant social political economic and demographic changes several wildlife species are currently growing in numbers and recolonizing Europe While this is rightly hailed as a success of the environmental movement the return of wildlife brings its own issues As the animals arrive in the places we inhabit we are learning anew that life with wild nature is not easy especially when the accumulated cultural knowledge and experience pertaining to such coexistence have been all but lost This book provides a hermeneutic study of the ways we come to understand the troubling impacts of wildlife by exploring and critically discussing the meanings of ecological discomforts Thus it begins the work of rebuilding the culture of coexistence The cases presented in this book range from crocodile attacks to mice infestations and their analysis consequently builds up an ethics that sees wildlife as active participants in the shaping of human moral and existential reality This book is of interest not only to environmental philosophers who will find here an original contribution to the established ethical discussions but also to wildlife managers and even to those members of the public who themselves struggle to make sense of encounters with their new wild neighbors
