Great Modern Short Stories Bennett Cerf, 1942 Wahb Ernest Thompson Seton, 2015-07-30 First published more than a century ago *The Biography of a Grizzly* recounts the life of a fictitious bear named Wahb who lived and died in the Greater Yellowstone region This new edition combines Ernest Thompson Seton's classic tale and original illustrations with historical and scientific context for Wahb's story providing a thorough understanding of the setting cultural connections biology and ecology of Seton's best known book By the time *The Biography of a Grizzly* was published in 1900 grizzly bears had been hunted out of much of their historical range in North America The characterization of Wahb along with Seton's other anthropomorphic tales of American wildlife helped to change public perceptions and promote conservation As editors Jeremy M Johnston and Charles R Preston remind us however Seton's approach to writing about animals put him at the center of the Nature Faker controversy of the early twentieth century when John Burroughs and Theodore Roosevelt among others

denounced sentimental representations of wildlife The editors address conservation scientists continuing concerns about inaccurate depictions of nature in popular culture Despite its anthropomorphism Seton s paradoxical book imparts a good deal of insightful and accurate natural history even as its exaggerations shaped early twentieth century public opinion on conservation in often counterproductive ways By complicating Seton s enthralling tale with scientific observations of grizzly behavior in the wild Johnston and Preston evaluate the story s accuracy and bring the story of Yellowstone grizzlies into the present day Preserving the 1900 edition s original design and illustrations Wahb brings new understanding to an American classic updating the book for current and future generations
