are not alone you see Nor is there anything wrong with you reacting that way Your puzzlement is a perfectly healthy and normal human response to the cognitive dissonance and other psychological disruptions that often dissonate and disrupt when foreigners make unprotected contact with high grade Germanness Or at least that s what a specialist in Vienna told me As Winston Churchill once said Germany is a riddle wrapped in a mystery inside an enigma Actually he said Russia when he said that but I m pretty sure he meant Germany He was Winston Churchill after all and he had been around a bit I certainly would have said Germany And I wouldn t much less couldn t have said it better myself Germany and the Germans are indeed enigmatic and well really weird sometimes This collection of random personal observations and unsolicited opinion is an attempt to document just that I cannot guarantee that this list of German oddities is complete of course I can assure you however that enjoying these oddities in the privacy of your own home is a relatively safe and effective way to partake in the German experience without any of the harmful side effects Viel Gl ck dabei and good luck with that
