From Pen to Pixel Patrizia Fortini, Krupali Krusche, 2021-01-31 Efforts to build rebuild and maintain the Forum Romanum Rome s historic urban epicenter are likely as old as the place it self some 2800 years As a result the historic significance and archaeological richness of the Forum cannot be overestimated Despite its many changes the Forum Romanum s survival today represents an outstanding example of cultural heritage continuity Its highest possible protection status among monuments conservation agencies in Italy and its early listing on UNESCO s World Heritage List in 1980 are testaments to this Due to its remarkable physical survival the Forum Romanum has been the object of extensive research documentation restoration and preservation efforts over the past two centuries especially The sophistication of these measures evolved to include a wide range of expertise Lay interest among antiquarians and architects in Rome s past from the Renaissance through the eighteenth century was supplanted by the emerging new disciplines of archaeology architectural restoration and museology From the late nineteenth century corresponding advancements in archaeological method and conservation theory and science were increasingly applied From this time on as well expectations for preserving and presenting the Forum Romanum were high the famous site being a matter of intense Roman pride political interest and serving as a must see destination for visitors to Rome Leading historians archaeologists and conservators have been central to the story of the Forum s survival and interpretation While numerous noted antiquarians and historians preceded him the architect and archaeologist Giacomo Boni 1859 1925 was unusual even prescient in his approach and treatment of the place during his tenure as director of excavations of the Forum Romanum from 1898 until 1925 His combined talents as an architect archaeologist and conservator

set a standard at the time for careful research thorough documentation and responsible conservation measures The sponsors of the DHARMA conference have wisely chosen to focus on archaeological research and conservation in the Forum during Giacomo Boni s tenure since his work reflects early best practices in researching preserving and interpreting such places To frame the discussion some precedents and influences of the work of Giacomo Boni are offered

Drawing Futures Bob Sheil,Frédéric Migayrou,Luke Pearson,Laura Allen,2016-11-11 Drawing Futures brings together international designers and artists for speculations in contemporary drawing for art and architecture Despite numerous developments in technological manufacture and computational design that provide new grounds for designers the act of drawing still plays a central role as a vehicle for speculation There is a rich and long history of drawing tied to innovations in technology as well as to revolutions in our philosophical understanding of the world In reflection of a society now underpinned by computational networks and interfaces allowing hitherto unprecedented views of the world the changing status of the drawing and its representation as a political act demands a platform for reflection and innovation Drawing Futures will present a compendium of projects writings and interviews that critically reassess the act of drawing and where its future may lie Drawing Futures focuses on the discussion of how the field of drawing may expand synchronously alongside technological and computational developments The book coincides with an international conference of the same name taking place at The Bartlett School of Architecture UCL in November 2016 Bringing together practitioners from many creative fields the book discusses how drawing is changing in relation to new technologies for the production and dissemination of ideas

Feminist Histories and Digital Media Paula Hamilton,Mary Sponberg,2020-06-09 Addressing current trends in feminist historical and literary scholarship in relation to digital media this book looks at how the field has developed since the first feminist archival research projects were initiated over twenty years ago The contributions to the book explore three key concerns projects which document the history of women s political activism the digitising of primary document archives by women and the impact of digitisation on historical research about women In addition the book sheds light on the way in which historians and literary scholars fuse digital sources with traditional forms such as books and journal articles to imagine different and ground breaking histories of women s experience With the field of feminist history and its relationship to the digital world in a dynamic position the contributions to this volume can be read as signposts for future research in the field posing questions for scholars and readers to explore in more detail This book was originally published as

a special issue of Women's History Review **The Routledge Companion to Entrepreneurship** Ted Baker, Friederike Welter, 2014-09-15 Research in entrepreneurship has been booming with perspectives from a range of disciplines and numerous developing schools of thought It can be difficult for young scholars and even long time researchers to find their way through the lush garden of ideas we see before us The purpose of this book is to map the research terrain of entrepreneurship providing the perfect starting point for new and existing researchers looking to explore Topics covered range from emerging perspective through issues at the core of the field to innovative methodologies Starting off with a preface by Bill Gartner each section of the book brings together a world class set of established leading researchers and rising stars This considered comprehensive and conclusive companion integrates the recent debates in entrepreneurship research under one cover to provide a resource which will be useful across disciplinary boundaries and for a whole range of students and researchers **Control Engineering and Information Systems** Zhijing Liu, 2015-01-19 Control Engineering and Information Systems contains the papers presented at the 2014 International Conference on Control Engineering and Information Systems ICCEIS 2014 Yueyang Hunan China 20-22 June 2014 All major aspects of the theory and applications of control engineering and information systems are addressed including Intelligent s *Neuromorphic Engineering Systems and Applications* André van Schaik, Tobi Delbruck, Jennifer Hasler, 2015-07-05 Neuromorphic engineering has just reached its 25th year as a discipline In the first two decades neuromorphic engineers focused on building models of sensors such as silicon cochleas and retinas and building blocks such as silicon neurons and synapses These designs have honed our skills in implementing sensors and neural networks in VLSI using analog and mixed mode circuits Over the last decade the address event representation has been used to interface devices and computers from different designers and even different groups This facility has been essential for our ability to combine sensors neural networks and actuators into neuromorphic systems More recently several big projects have emerged to build very large scale neuromorphic systems The Telluride Neuromorphic Engineering Workshop since 1994 and the CapoCaccia Cognitive Neuromorphic Engineering Workshop since 2009 have been instrumental not only in creating a strongly connected research community but also in introducing different groups to each other's hardware Many neuromorphic systems are first created at one of these workshops With this special research topic we showcase the state of the art in neuromorphic systems ODROID Magazine, 2014-08-01 Table of Contents 6 Android Development Using the Linux Kernel A Guide to the Android Specific Drivers 9 Mount Your Internal SD Card When Booting from eMMC in Linux 10 Introducing the ODROID W A Miniature Raspberry Pi Compatible Wearable Computer 14 Search with Google BBS What if Google Were Invented in the 1980s 14 Fixing Android Overscan A Simple App to Change the Desktop Resolution 15 All About Hardkernel's eMMC Modules The ODROID Advantage 17 Linux Kernel Compilation Get Full Control of Your Operating System Like a Linux Jedi 21 Youtube Player Alternative Use Tampermonkey to Watch Videos 22 Interesting Linux Commands Part 1 Cute Programs For Your Next Coffee Break 23 ODROID U3 vs

Of Iron In Pathophysiologic Conditions Raffaella Gozzelino, Paolo Arosio, 2015-06-09 The iron element Fe is strictly required for the survival of most forms of life including bacteria plants and humans Fine tuned regulatory mechanisms for Fe absorption mobilization and recycling operate to maintain Fe homeostasis the disruption of which leads to Fe overload or Fe depletion Whereas the deleterious effect of Fe deficiency relies on reduced oxygen transport and diminished activity of Fe dependent enzymes the cytotoxicity induced by Fe overload is due to the ability of this metal to act as a pro oxidant and catalyze the formation of highly reactive hydroxyl radicals via the Fenton chemistry This results in unfettered oxidative stress generation that by inducing protein lipid and DNA oxidation leads to Fe mediated programmed cell death and organ dysfunction Major and systemic Fe overloads occurring in hemochromatosis and Fe loading anemias have been extensively studied However localized tissue Fe overload was recently associated to a variety of pathologies such as infection inflammation cancer cardiovascular and neurodegenerative disorders In keeping with the existence of cross regulatory interactions between Fe homeostasis and the pathophysiology of these diseases further investigations on the mechanisms that provide cellular and systemic adaptation to tissue Fe overload are instrumental for future therapeutic approaches Thus we encourage our colleagues to submit original research papers reviews perspectives methods and technology reports to contribute their findings to a current state of the art on a comprehensive overview of the importance of iron metabolism in pathophysiologic conditions
