web when you solve a quadratic using the quadratic formula you do a lot of simplification including simplifying the square root if the square root goes away because it contained a perfect square then your answers will be rational numbers

quadratic equation solver math is fun - Sep 04 2022

web the solution s to a quadratic equation can be calculated using the quadratic formula the means we need to do a plus and a minus so there are normally two solutions the blue part $b^2 - 4ac$ is called the discriminant because it can discriminate between the possible types of answer when it is positive we get two real solutions

using the quadratic formula algebra video khan academy - Nov 06 2022

web good question the answer to a problem like this is usually written as the square root of the number for example if we had an equation like $x^2 = 57$ where the square root of 57 would be the value for x then it's normally written $\sqrt{57}$ use the quadratic formula to solve the equation 0 is equal to negative $7q$ squared plus $2q$ plus 9 now
