The Morals of the Story David Baggett, Marybeth Baggett, 2018-05-08 For centuries the moral argument that objective morality points to the existence of God has been a powerful apologetic tool In this volume David and Marybeth Baggett offer a dramatic robust and even playful version of the moral argument showing that it not only points to God's existence but that it also contributes to our ongoing spiritual transformation

The Oxford Handbook of Spinoza Michael Della Rocca, 2018 Until recently Spinoza's standing in Anglophone studies of philosophy has been relatively low and has only seemed to confirm Friedrich Heinrich Jacobi's assessment of him as a dead dog However an exuberant outburst of excellent scholarship on Spinoza has of late come to dominate work on early modern philosophy This resurgence is due in no small part to the recent revival of metaphysics in contemporary philosophy and to the increased appreciation of Spinoza's role as an unorthodox pivotal figure indeed perhaps the pivotal figure in the development of Enlightenment thinking Spinoza's penetrating articulation of his extreme rationalism makes him a demanding philosopher who offers deep and prescient challenges to all subsequent inevitably less radical approaches to philosophy While the twenty six essays in this volume by many of the world's leading Spinoza specialists grapple directly with Spinoza's most important arguments these essays also seek to identify and explain Spinoza's debts to previous philosophy his influence on later philosophers and his significance for contemporary philosophy and for us

Plato Carol Attack, 2024-11-12 A new reading of Plato's philosophy that reveals it as deeply shaped by his experiences in Athens Plato is a key figure from the beginnings of Western philosophy yet the impact of his lived experience on his thought has rarely been explored Born during a war that would lead to Athens decline Plato lived in turbulent times Carol Attack explores how Plato's life in Athens influenced his thought how he developed the Socratic dialogue into a powerful philosophical tool and how he used the institutions of Athenian society to create a compelling imaginative world Accessibly written this book shows how Plato made Athens the place where diverse ideas were integrated

into a new way of approaching the big questions about our lives then and now **Plato and the Body** Coleen P. Zoller, 2018-08-01 Offers an innovative reading of Plato analyzing his metaphysical ethical and political commitments in connection with feminist critiques For centuries it has been the prevailing view that in prioritizing the soul Plato ignores or even abhors the body however in *Plato and the Body* Coleen P Zoller argues that Plato does value the body and the role it plays in philosophical life focusing on Plato's use of Socrates as an exemplar Zoller reveals a more refined conception of the ascetic lifestyle epitomized by Socrates in Plato's *Phaedo* *Symposium* *Phaedrus* *Gorgias* and *Republic* Her interpretation illuminates why those who want to be wise and good have reason to be curious about and love the natural world and the bodies in it and has implications for how we understand Plato's metaphysical and political commitments This book shows the relevance of this broader understanding of Plato for work on a variety of relevant contemporary issues including sexual morality poverty wealth inequality and peace Zoller gives us a new way of going forward in Plato studies Her reading of the Platonic conception of embodiment frees it from the negative associations of the past *Plato and the Body* will radically shift the scholarly conversation The book is truly an exhilarating read Anne Marie Schultz author of *Plato's Socrates as Narrator A Philosophical Muse* **Philosophy and Human Flourishing** John J. Stuhr, 2023 What is a thriving meaningful and flourishing human life What practices associations policies and institutions support flourishing lives These questions are not new ones Philosophers from Buddha and Socrates onward have stressed that love of wisdom is demonstrated by living well not by thought or theory alone but by action and practice In light of new developments in positive psychology psychiatry evolutionary biology cognitive science and behavioral economics these questions can be addressed with fresh insight rooted in both theory and practice This new perspective is further supported by recent research in feminist theory critical race studies philosophical psychology neuro ethics and more *Philosophy and Human Flourishing* both draws on and charts new directions for philosophy and humanistic thought aimed at human flourishing To reflect the fact that human lives and cultures differ the perspectives here are refreshingly pluralistic a commitment evident in the breadth and diversity of its highly accomplished contributors Their expertise spans philosophy of mind philosophy of science evolutionary theory cognitive science ethics political theory social epistemology education and the arts Each chapter is crisp clear and free of technical jargon All contributors write in explicit conversation and cross reference each other to create a volume that is cohesive and engaging Human flourishing does not happen automatically or by default It demands careful reflection and imagination This book takes up and applies that reflection and imagination to the search for a flourishing life **Liberation in the Face of Uncertainty** Hubert J. M. Hermans, 2022-01-13 This book uses Dialogical Self Theory to respond to the challenges of climate change well being and disenchantment of the world **Philosophy's Future** Russell Blackford, Damien Broderick, 2017-05-01 *Philosophy's Future* The Problem of Philosophical Progress diagnoses the state of philosophy as an academic discipline and calls it to account inviting further reflection and dialogue on its cultural value and

capacity for future evolution Offers the most up to date treatment of the intellectual and cultural value of contemporary philosophy from a wide range of perspectives Features contributions from distinguished philosophers such as Frank Jackson Karen Green Timothy Williamson Jessica Wilson and many others Explores the ways philosophical investigations of logic world mind and moral responsibility continue to shape the empirical and theoretical sciences Considers the role of contemporary philosophy in political issues such as women s rights the discrimination of minorities and public health

Too Weird to Believe, Too Plausible to Deny Cliff Sosis, 2025-10-15 Anyone new to philosophy soon encounters new ideas that challenge their hidden biases and cherished beliefs or are at odds with common sense and tradition Yet these philosophical ideas are backed by strong arguments arguments so strong that it s difficult to identify what is wrong with them Too Weird to Believe Too Plausible to Deny Mind Blowing Philosophical Ideas explores these strange yet cogent ideas in 29 short clear chapters written by some of the best philosophers alive today Some of these ideas include Nobody should reproduce You are not responsible for your actions Consciousness is in everything everywhere Your property doesn t really belong to you Absolutely anything can be art Biases are morally good and help us understand reality We can t know what scientific facts are correct Having a disability can be good for you You should never ever lie even to save a life You have no moral duty to obey the law You don t exist because there is no self Each chapter starts with a seemingly counterintuitive philosophical conclusion and a simple accurate description of the underlying argument supporting the conclusion including historical and cultural context This is followed by an outline of objections for the purposes of conversation and debate and a discussion of the implications of the idea or how it may relate to the reader s interests and attitudes Each chapter closes with suggested readings and a list of references for readers who want to learn more about the idea

Toward a Negative Theology of Judaism Ernest Rubinstein, 2025-07-29 This book reimagines Judaism and Jewish identity after the time honored method of negative theology It builds on negations that clear space for revisioning of such topics as creation and revelation the people and State of Israel history and suffering ritual and ethics God and spiritual life The theology builds on thought from key figures in the history of Jewish philosophy and serves along the way as an introduction to them including Ecclesiastes Philo Saadia Gaon Judah Halevi Maimonides Spinoza Moses Mendelssohn Nachman Krochmal Hermann Cohen Franz Rosenzweig Martin Buber Abraham Joshua Heschel Emil Fackenheim Emmanuel Levinas Yeshayahu Leibowitz and more A key finding is that a shared negation binds God and the Jewish people together their joint refusal to submit to contentful constrictive definition
