Kristeva's Fiction Benigno Trigo,2013-09-17 With published work spanning more than forty years Julia Kristeva s influence in psychoanalysis and literary theory is difficult to overstate In addition to this scholarship Kristeva has written several novels however this portion of her oeuvre has received comparatively scant attention In this book Kristeva scholars from a number of disciplines analyze her novels in relation to her work in psychoanalysis interrogating the relationships between fiction and theory The essays explore questions including what is the value of experimental writing that escapes easy definition and classification putting ideas at the same level as character pacing plot suspense form and style And how might such fiction help its readers overcome the psychological maladies that affect contemporary society The contributors make a compelling case for understanding Kristeva s fiction as a crucial influence to her wider psychoanalytic project

Kelley,2024-06-10 This book engages legal and literary texts in order to examine acquaintance crimes such as rape sexual harassment stalking and domestic abuse and to challenge how the victim s

physical or psychological freeze response is commonly and inaccurately mistaken for her consent Following increased interest in the MeToo movement and the discoveries of sexual abuse by numerous public figures this book analyzes themes in law and literature that discredit victims and protect wrongdoers Interpreting a present day novel alongside legislation and written court cases each chapter pairs a fictional text with a nonfictional counterpart In these pairings the themes events and arguments of each are carefully unpacked and compared against one another As the cross readings unfold we learn that a victim does not ask for it and she should not arouse suspicions just because she does not fight run away or report the crime Instead and as this book demonstrates the more common and most practical response is to become physically and mentally paralyzed by fear the victim dissociates shuts down and remains stuck in the fright and captivity of abuse This book will interest scholars and students working in and especially at the intersection of law literature gender studies and criminology

The Craft of Fiction David Letzler, 2017-06 A 2017 Choice Outstanding Academic Title What is the strange appeal of big books The mega novel a genre of erudite tomes with encyclopedic scope has attracted wildly varied responses from fanatical devotion to trenchant criticism Looking at intimidating mega novel masterpieces from *The Making of Americans* to *2666* David Letzler explores reader responses to all the seemingly random irrelevant pointless and derailing elements that comprise these mega novels elements that he labels craft after the computer science term for junk code In *The Craft of Fiction* Letzler suggests that these books are useful tools to help us understand the relationship between reading and attention While mega novel text is often intricately meaningful or experimental sometimes it is just excessive and pointless On the other hand mega novels also contain text that though appearing to be craft turns out to be quite important Letzler posits that this craft requires readers to develop a sophisticated method of attentional modulation allowing one to subtly distinguish between text requiring focused attention and text that must be skimmed or even skipped to avoid processing failures *The Craft of Fiction* shows how the attentional maturation prompted by reading mega novels can help manage the information overload that increasingly characterizes contemporary life
