

The background of the cover is a complex, abstract digital illustration. It features a central, glowing orange and yellow sphere that resembles a planet or a data hub. This sphere is surrounded by a dense network of thin, blue and white lines that crisscross the space, creating a sense of global connectivity or a complex system. In the lower-left area, there are several smaller, bright blue, rounded shapes that look like stylized clouds or data packets. The overall color palette is dominated by deep blues, oranges, and yellows, giving it a high-tech, futuristic feel.

**Process and Production Methods (PPMs) in WTO Law** David Sifonios, 2018-01-30 This book examines the conditions under which PPM measures may be adopted under WTO law de lege lata and de lege ferenda It analyses in detail the complex case law in this field and its evolution in the last 25 years as well as the many doctrinal debates around PPM measures and their relevance in the light of the evolution of case law both under the GATT and the TBT Agreement Further it also suggests an original approach to the interpretation of the relevant provisions of the GATT and the TBT Agreement in the context of PPM measures The PPM issue has been one of the most debated topics in the trade and environment debate Even though the US Shrimp case showed that PPM measures are not prohibited per se under the GATT many questions remain unanswered when it comes to the precise conditions under which environmental PPM measures are justifiable under WTO law for example in the field of trade measures relating to climate change mitigation efforts natural resources management policies and biodiversity conservation measures **The Road to Excellence in Central Banking in the Asia Pacific**
