Tightlipped English Edition:

The Translation of Children's Literature Gillian Lathey, 2006-01-01 In the last few decades a number of European scholars have paid an increasing amount of attention to children's literature in translation. This book not only provides a synthetic account of what has been achieved in the field but also makes us fully aware of all the textual, visual and cultural complexities that translating for children entails. Students of this subject have had problems in finding a book that attempted an up to date and comprehensive review of the field. Gillian Lathey's Reader does just this. Dr Piotr Kuhiwczak, Director, Centre for Translation and Comparative Cultural Studies, University of Warwick. Global Healing Karen Laura Thornber, 2020-03-02 Read an interview with Karen Thornber. In *Global Healing Literature Advocacy*, Karen Laura Thornber analyzes how narratives from diverse communities globally engage with a broad variety of diseases and other serious health conditions and advocate for empathic, compassionate and respectful care that facilitates healing and enables wellbeing. The three parts of this book discuss writings from Africa, the Americas, Asia, Europe, the Middle East and Oceania that implore societies to shatter the devastating social stigmas which prevent billions from accessing effective care, to increase the availability of quality, person-focused healthcare and to prioritize partnerships that facilitate healing and enable wellbeing for both patients and loved ones. Thornber's *Global Healing* remaps the contours of comparative literature, world literature, the medical humanities and the health humanities. Watch a video interview with Thornber by the Mahindra Humanities Center, part of their conversations on Covid-19. Read an interview with Thornber on Brill's Humanities Matter blog. **Miscellaneous Publication**, 1938 Translating Children's Literature Gillian Lathey, 2015-07-24 *Translating Children's Literature* is an exploration of the many developmental and linguistic issues related to writing and translating for children, an audience that spans a period of enormous intellectual progress and affective change from birth to adolescence. Lathey looks at a broad range of children's literature from prose fiction to poetry and picture books. Each of the seven chapters addresses a different aspect of translation for children, covering narrative style and the challenges of translating the child's voice, the translation of cultural markers for young readers, translation of the modern picture book, dialogue, dialect and street language in modern children's literature, read-aloud qualities, wordplay, onomatopoeia and the translation of children's poetry, retranslation, retelling and reworking, the role of translation for children within the global publishing and translation industries. This is the first practical guide to address all aspects of translating children's literature, featuring extracts from commentaries and interviews with published translators of children's literature as well as examples and case studies across a range of languages and texts. Each chapter includes a set of questions and exercises for students. *Translating Children's Literature* is essential reading for professional translators, researchers and students on courses in translation studies or children's literature. *Kafka Translated* Michelle Woods, 2013-11-07 *Kafka Translated* is the first book to look at the issue of translation and Kafka's work.
