Cameron, Constance Russell, 2016-03-30 Over the past decade concerns about a global obesity epidemic have flourished. Public health messages around physical activity, fitness, and nutrition permeate society despite significant evidence disputing the facts we have come to believe about obesity. We live in a culture that privileges thinness and enables weight-based oppression often expressed as fat phobia and fat bullying. New interdisciplinary fields that problematize obesity have emerged including critical obesity studies, critical weight studies, and fat studies. There also is a small but growing literature examining weight-based oppression in educational settings in what has come to be called fat pedagogy. The very first book of its kind, *The Fat Pedagogy Reader*, brings together an international interdisciplinary roster of respected authors who share heartfelt stories of oppression, privilege, resistance, and action; fascinating descriptions of empirical research; confessional tales of pedagogical misadventures; and diverse accounts of educational interventions that show promise. Taken together, the authors illuminate both possibilities and pitfalls for fat pedagogy that will be of interest to scholars, educators, and social justice activists. Concluding with a fat pedagogy manifesto, the book lays a solid foundation for this important and exciting new field. This book could be adopted in courses in fat studies, critical weight studies, bodies and embodiment, fat pedagogy, feminist pedagogy, gender and education, critical pedagogy, social justice education, and diversity in education. **Focus On: 100 Most Popular 20th-century American Politicians** Wikipedia contributors, *Encyclopedia of Women and American Politics, Third Edition* Lynne Ford, 2021-07-01 *Encyclopedia of Women and American Politics, Third Edition* contains all the material a reader needs to understand the role of women throughout America's political history. This cross-disciplinary series from the International Leadership Association draws from current research findings, development practices, pedagogy, and lived experience to deliver provocative thinking that enhances leadership knowledge and improves leadership development of women around the world. This volume addresses the lack of critical attention in leadership research to how women leaders and professionals are represented in the media. The volume acts as a companion piece to a Seminar Series funded by the UK's Economic and Social Sciences Research Council (ESRC) to address this gap in the research.

The lack of research interrogation of gendered media representations of women leaders and professionals is a surprising omission given the wealth of evidence from stakeholders outside academia revealing that women and women leaders continue to be underrepresented across all forms of media outlet. This volume contributes to social change equality and economic performance by raising consciousness about women's lack of representation in the media and challenges gendered misrepresentations of women professionals and leaders in the media through the presentation of a range of empirical investigations and methodological approaches. The volume contributors use various theories and conceptualizations to problematize and analyze women's limited representation in the media and the gendered representations of women professionals and leaders. Together the volume's 14 chapters reflect the beginning of a rich diverse emergent strand of academic research that interrogates relationships between the media in its multiple forms and women's leadership. Illuminating the positioning of women leaders and professionals as both complex and problematic, these chapters offer an important agenda for management and organization scholars. They attest to the need to describe and make visible women's misrepresentations in the media while drawing attention to the importance of situating these misrepresentations in the broader social economic historical cultural and political context as a means to gain insight into their development and evolution. As a rich and diverse site of research examination of the media calls for a broad methodological repertoire. The chapters in this book draw from multiple sources and include among others the development of thematic analysis to illuminate stereotypes, the use of critical discourse analysis to understand professional women's experience, a rhetorical analysis of the covers of Time magazine and an interrogation of the power dynamics manifested in the media's practice of nicknaming women leaders. *Gender Media and Organization* is a first step in stimulating further research that poses critical questions concerning gendered and sexualized representations of women leaders in textual and visual forms and considers the media's influence on gender equality and social justice. The chapters offer fruitful avenues for future research to continue the momentum of challenging gendered media representations of women leaders and professionals. *Pathways into the Political Arena* Dionne Rosser-Mims, Janet R. McNellis, Juanita Johnson-Bailey, Chrys Egan, 2020-05-01. As epitomized in the 2016 U.S. Presidential election, women in politics may hit a glass ceiling or in the case of former U.K. Prime Minister Theresa May in 2019 go over a glass cliff. Even though women are starting to experience more success gaining offices at state and local levels, women's participation in the political arena is still disproportionately low. This book explores current research findings, development practices, theory, and the lived experience to deliver provocative thinking that enhances leadership knowledge and improves leadership development of women around the world. **Sexual Harassment and Misconduct** Gina Robertiello, 2021-08-09.
