Pula, 2025-01-21 Often referred to as the turning point of the American Revolution the Saratoga Campaign has had much ink spilled about its causes leaders and consequences Less has been recorded about the individuals who participated in this political drama This book presents the experiences of the real people involved in the Saratoga Campaign from squabbling English politicians and ambitious generals both British and American to intercolonial jealousies Focusing on the testimonies of people who are largely overlooked this history sheds light on the most human aspects of the campaign so often forgotten **Volume 1 Family and Mormon Church Roots: Colonial Period to 1820** JOHN J HAMMOND, 2011-07-27 This is the first volume of a multi volume work entitled The Quest for the New Jerusalem Mormon Generational Saga and it ends with a listing of the titles of all sixteen volumes in this series which have been written to this point Before discussing the first volume it is necessary to describe the entire series Around the year 2000 the author began a thorough investigation of his genealogical roots and to his surprise discovered that many of his ancestors had played significant roles in the early history of America and central roles in the history of Mormonism Wherever he looked his ancestors were there during the colonial King Phillip s and French and Indian Wars in New England at the Battle of Bunker actually Breed s Hill and on a prison ship for two years on the Hudson River during the American Revolution on whaling ships in the south Atlantic and northern Pacific during the 1840s at

Mormon Kirtland Far West and Nauvoo during the turbulent and often bloody events of the 1830s and 1840s in the earliest Mormon experiments with polygamy almost all of the author's ancestors were polygamists in San Francisco and Sacramento during the earliest stages of the California Gold Rush in the immigrant ships filled with Mormon converts crossing the Atlantic in the wagon trains carrying the saints across the plains to Salt Lake City during the establishment of the Mormon Church in Hawaii in the early 1850s in the first halting steps toward elementary and higher education in Utah during the Mormon War with the U S army in Utah in 1857-58 in the operation of the early Salt Lake Theater in the building of the transcontinental railroad across Utah in 1869 in the settlement of the wild four corners area during the 1880s and 1890s in the rather secret and somewhat underhanded process by which Utah became a state and in the pioneer settlement of southern Idaho in the early 1900s The author felt impelled to tell these wonderful ancestral stories and it became obvious that this could not be done without giving an account of the history of the Mormon Church the two subjects were intimately interwoven Furthermore telling the linked ancestral Mormon story beginning in the American colonial period could not be adequately undertaken without giving an account of significant events in the larger American story In recent years a number of writers have given us fascinating generational family stories Alex Haley's *Roots* is a well known example Haley traced his African American family all the way back to a slave taken from a village in Africa In 1991 Chinese American Jung Chang's in her *Wild Swans Three Daughters of China* told a wonderful story of three generations of Chinese women her great grandmother grandmother and mother reaching back to China Adele Logan Alexander's *Homelands and Waterways The American Journey of the Bond Family* is an account of several generations of the author's African American family Concerning another example James Fox's *The Langhorne of Virginia* reviewer Robert Skidelsky wrote It was a clever idea to use family history to write about social and political history What Fox does is to use the Langhorne sisters as a peg on which to hang the story of the decline of the British aristocracy or Empire or both John Hammond's multi volume *Mormon Generational Saga* evolved into something very similar to Fox's but he utilizes family history to write about religious as well as social and political history In fact what has emerged is a very detailed examination of the early history of the Mormon Church with a special focus upon how that history affected his ancestors The series opens in the earliest years of colonial New England with an account of four of the author's ancestral families and the early lives and ancesto

Thirteen Charges Against Benedict Arnold Ennis Duling,2021-07-29 Years before General Benedict Arnold betrayed the American cause a young officer and attorney named John Brown brought 13 charges of misconduct against him and called for his arrest Brown was shuttled from one general to another and finally to George Washington before powerful politicians decided in Arnold s favor without hearing from Brown or any other witnesses Historians have continued to ignore the accusations finding Brown s charges to be false and even absurd In fact some are unquestionably true and all are worthy of investigation John Brown was an early hero of the Revolution a legislator envoy spy and accomplished field officer His charges and his many proposed witnesses are a starting point for a reevaluation of Arnold s conduct in the war on his storied march up Maine s Kennebec River to Canada during the winter siege of Quebec and at the battles of Valcour Island and Saratoga What emerges from Brown s charges is a story of deceit and misconduct and of prominent leaders and historians turning a blind eye in order to maintain exciting myths

Reconstructing Historic Landmarks Wayde Brown,2018-09-03 Historic reconstructions have been a consistent part of the historic preservation and heritage conservation movements in the United States and Canada Indeed reconstruction has been the primary tool at the most influential historic sites for example the Governor s Palace and the Capitol at Colonial Williamsburg USA and in Canada the Fortress of Louisbourg Dozens of other reconstructions have appeared during the past century in North America undertaken by individuals communities states and provinces and by national agencies responsible for cultural heritage Despite this prevalence historic reconstructions have received little scholarly attention and the question of what motivated the proponents of these projects remains largely unexamined This book explores that question through detailed studies of ten historic reconstructions located throughout Canada and the United States ranging from 1908 to 2011 Drawing upon diverse archival sources and site investigations the proponents of each site are given voice to address their need to remake these landmarks be it to sustain to challenge or even subvert a historical narrative or with reference to contemporary heritage studies to reclaim these spaces Reconstructing Historic Landmarks provides a fascinating insight into these shifting concepts

of history in North America and will be of considerable interest both to students and scholars of historic preservation and indeed to heritage professionals involved in reconstructions themselves
