

College Life Essay:

College Life is one of the most remarkable and lovable times of an individual's life. Unlike School Life, College Life has a different experience, and a person needs to have this experience in his/her life. College Life exposes us to whole new experiences which we always dream of experiencing after our school life. Lucky are those who get the chance to enjoy their college life, as many people don't get this chance due to their circumstances or financial issues. For every person, College Life has a different meaning. While some people spend their college life partying with friends, others become more cautious about their careers and study hard. Whatever the way, every individual enjoys their college life and always wishes to relive that time once it is over.

College Life Experience: How is it different from School Life?

Both school life and college life is the most memorable time of a person's life, but both of them are quite different from each other. While in School life, we learn everything in a protected environment, College Life exposes us to a new environment where we have to learn new things and face new challenges by ourselves. We spend half of our young lives in school, and thus we get comfortable living in that environment. But College Life is for three years only, where every year introduces new challenges and lessons to us. While in school, our teachers and friends always protect and guard us, in college life we form a relationship with our mentors, and they don't protect us all the time as our school teachers did.
