Shorn Women Gender And Punishment In Liberation:

Shorn Women Fabrice Virgili, 2002-12-01 At the end of World War II over 20 000 French people accused of collaboration with Germany endured a particularly humiliating act of revenge their heads were shaved in public Nearly all those punished were women This episode in French history continues to provoke shame and unease and as a result has never been the subject of a thorough examination This groundbreaking book by Fabrice Virgili throws new light on these acts of retribution and reveals that contrary to popular belief a vast number of those women accused were innocent of any sexual involvement with Germans Further this form of punishment was in evidence well before the Liberation and in fact occurred in most European countries both in the twentieth century and earlier Why were these punishments largely directed at women Was a relationship with a German emblematic of female collaboration and betrayal or were contemporary feelings of violence towards the enemy subsequently re directed Answering these questions and many more Virgili suggests that the punishment was not only meted out for horizontal collaboration but also for many other forms of involvement and that the act of shaving the head was itself a form of sexual punishment For Virgili the public nature of the punishment was a defence strategy a response to the German Occupation and a reaction to the suffering and violence that had preceded the Liberation This pioneering investigation of one of France s darkest moments will be fascinating reading for anyone interested in World War II French history or women s studies Germaine Tillion, Lucie Aubrac, and the Politics of Memories of the French Resistance Donald Reid, 2009-03-26 Germaine Tillion Genevi ve de Gaulle Anthonioz Lucie Aubrac and Raymond Aubrac were among a small number of French men and women who made the decision to resist early in the Occupation In the summer of 1940 Marc Bloch analyzed the society in which he lived in order to identify and affirm allegiance to a France truly at odds with that which was taking shape in Vichy Bloch died in the Resistance but his life would take on new meanings in the collective memories of postwar France Confrontation with the Aubracs account of their refusal to accept the unacceptable became another important way the French engaged with the Resistance and its legacy The acts Tillion took during the French Algerian War and de Gaulle Anthonioz took when confronted with poverty in the France of the trentes glorieuses were of a piece with the radical nature of their earlier decision to resist Evocation of the Resistance provided a basis for France to reconstitute itself with honor after the war Yet memory of the Resistance could also pose difficult issues for future generations Those who came of age in 1968 grappled with the memory of the intrepid resisters of the first years of the war whose decision to resist stood as an inspiration and a challenge Historians with the imperative to take the mandate to narrate the past from historical actors to make resisters figures of history developed complex relationships with those who had resisted The essays in this collection address how resisters made sense of the wartime and postwar world in terms of their resistance and how others made sense of the Resistance itself and its legacy by engaging with resisters and their histories

Prisoners of War and Local Women in Europe and the United States, 1914-1956 Matthias Reiss, Brian K.

Feltman,2022-04-19 This book brings together historians from Great Britain the United States Germany France Canada Austria and Latvia who have worked and published on fraternisation between Prisoners of War and local women during either the First or Second World War providing the first comparative study of this multi faceted phenomenon in different belligerent countries By focusing on prisoners as wartime migrants and studying the nature and impact of their interactions with the local female population this book expands the existing framework on prisoner of war studies Its substantial scope and comparative approach make it an important point of reference in the growing research field of POW studies **If This Is a Woman** Denisa Nešťáková,Katja Grosse-Sommer,Borbála Klacsmann,Jakub Drábik,2021-12-14 The present volume contains thirteen articles based on work presented at the XX Century Conference If This Is A Woman at Comenius University Bratislava in January 2019 The conference was organized against anti gender narratives and related attacks on academic freedom and women s rights currently all too prevalent in East Central Europe The papers presented at the conference and in this volume focus to a significant extent on this region They touch upon numerous points concerning gendered experiences of World War II and the Holocaust By purposely emphasizing the female experience in the title we encourage to fill the lacunae that still four decades after the enrichment of Holocaust studies with a gendered lens exist when it comes to female experiences The Anthropology of Sex Hastings Donnan,Fiona Magowan,2020-05-31 Sex scholarship has a long history in anthropology from the studies of voyeuristic Victorian gentlemen ethnographers to more recent analyses of gay sex transsexualism and the newly visible forms of contemporary sexuality in the West The Anthropology of Sex draws on the comparative field research of anthropologists to examine the relationship between sex as identity practice and experience Sexual cultures vary enormously and while often the topic of tabloid titillation they are more rarely subjected to strict cultural analysis The Anthropology of Sex is the first work to critically synthesise over a century of comparative expertise knowledge and understanding of diverse sexual forms Explores sexuality from diversity to perversity and asks how diverse sexual practices are linked Probes the cultural and comparative context of contemporary sexual practice and belief Examines the shaping of sex by global and globalizing forces The Anthropology of Sex will be key reading for undergraduate and postgraduate courses in anthropology and related disciplines **Embodiment and Representations of Beauty** Esther Hernández-Medina,Sharina Maíllo-Pozo,2024-09-06 Interrogating beauty s very definition this volume of Advances in Gender Research explores beauty as an avenue to create alternative knowledge as well as a conduit to engage in critical conversations on race ethnicity gender sexuality illness and fitness Negotiating the Nazi Occupation of France Sandra Ott,2025-02-19 The French the Basques and the myriad of foreigners who lived in wartime France often developed clever strategies for negotiating the Nazi Occupation of 1940 1944 This sometimes entailed living in harmony and cooperating with the enemy accommodating to the Germans presence or rejecting them through various modes of resistance and hostility People so often simply tried to survive the Occupation as best as they could and contrary to early perceptions of the French

people Most were neither bad nor good in a murky moral universe that was decidedly not black and white As this book argues that murky universe needs to be explored beyond the solely French or German experience By largely focusing on daily life the authors create a space in which to explore relations among people of varying ethnic religious regional and national identities They also engage with multiple disciplines anthropology history visual studies genocide studies as well as transnational memory and gender studies

The Oxford Handbook of Gender, War, and the Western World Since 1600 Karen Hagemann, Stefan Dudink, Sonya O. Rose, 2020 To date war history has focused predominantly on the efforts of and impact of war on male participants However this limited focus disregards the complexity of gendered experiences with war and the military The Oxford Handbook of Gender War and the Western World since 1600 investigates how conceptions of gender have contributed to the shaping of military culture examining the varied ideals and practices that have socially differentiated men and women s wartime experiences Covering the major periods in warfare since the seventeenth century The Handbook explores cultural representations of war and the interconnectedness of the military with civil society and its transformations

Women and Men at War Röger, Maren, Leiserowitz, Ruth, 2012-01-01 The Second World War fundamentally changed the societies of Central and Eastern Europe Social bonds and structures were destroyed by brutal occupation policies and extensive deportations These had long term consequences for the societies as a whole but also for individuals within the social fabric of their lives Not least of all gender roles and gender relations were influenced by it This everyday and gender historical dimension of the Second World War in Central and Eastern Europe has often come up short in the research whereby an integrated view of the effects in the post war period wa

After the Civil War Michael Richards, 2013-08 The Spanish civil war was fought out not only on streets and battlefields from 1936 to 1939 but also in terms of memory and trauma in the decades that followed This fascinating book explores how the memory of Spain s bloody civil war has been contested from 1939 to the present

France Since the Liberation Gino Raymond, 2024-02-20 This book focuses on the tension between the modernising thrust that places France on a trajectory of convergence with comparable liberal democracies and the defence of a national specificity that can act as a brake complicating France s relationship with its neighbours its present and its past This ambivalence in French political and social life stems from the conscious attempt to rebuild the nation after the trauma of Occupation during World War II and the new beginning provided by the Liberation The government of the Fourth Republic embraced the pursuit of a modernisation that would enable it to regain its place among the world s leading democratic states However this modernising ambition co exists with the belief in a specific destiny and a unique sense of mission that are intrinsic to the emergence of a sense of nationhood after the revolution of 1789 Raymond defines a critical perspective that draws together historical economic social and political issues into a coherent understanding of what makes France the way it is today Written with both academic rigour and a highly accessible clarity of style this volume is a valuable resource for students educators and researchers in French and European

Studies *Rape in Wartime* R. Branche,F. Virgili,2012-10-26 This collection offers a new reflection on rape in war time through 15 case studies ranging from Greece to Nigeria It questions the specificity of rape as a universal transgression its place in memories of war its legacies including children born from rape and the challenge of writing about intimate violence as both a scientist and a human **What Soldiers Do** Mary Louise Roberts,2013-05-10 This sobering account vividly depicts the impact of the influx of hundreds of thousands of GIs on French society especially on French women Foreign Affairs How do you convince men to charge across heavily mined beaches into deadly machine gun fire Do you appeal to their bonds with their fellow soldiers their patriotism their desire to end tyranny and mass murder Certainly but if you re the US Army in 1944 you also try another tack You dangle the lure of beautiful French women waiting just on the other side of the wire ready to reward their liberators in oh so many ways That s not the picture of the Greatest Generation that we ve been given but it s the one Mary Louise Roberts paints to devastating effect in *What Soldiers Do* Drawing on an incredible range of sources including news reports propaganda and training materials official planning documents wartime diaries and memoirs Roberts tells the fascinating and troubling story of how the US military command systematically spread and then exploited the myth of French women as sexually experienced and available The resulting chaos ranging from flagrant public sex with prostitutes to outright rape and rampant venereal disease horrified the war weary and demoralized French population The sexual predation and the blithe response of the American military leadership also caused serious friction between the two nations just as they were attempting to settle questions of long term control over the liberated territories and the restoration of French sovereignty While never denying the achievement of D Day or the bravery of the soldiers who took part *What Soldiers Do* reminds us that history is always more useful and more interesting when it is most honest and when it goes beyond the burnished beauty of nostalgia to grapple with the real lives and real mistakes of the people who lived it Many will appreciate this nuanced history of sex war and power Times Higher Education **Corporeal Peacebuilding** Tarja Väyrynen,2018-09-17 This book demonstrates how peace is an event that comes into being in mundane and corporeal encounters The book brings living and experiencing sentient body to Peace and Conflict Studies and examines war and peace as socio political institutions that begin and end with bodies It therefore differs from the wider field of Peace and Conflict Studies where the human body is treated as an abstract and non living entity The book demonstrates that conflict and violence as well as peace touch our bodies in multiple ways Through attending to witnessing wounded remembering silenced and resistant bodies the empirical cases of the book attest to the scope and diversity of war peace and the political of post conflict peacebuilding The book offers a sustained engagement with feminist social and political theory and will be of interest to academics and practitioners alike *Sexing Political Culture in the History of France* , **Retribution and Reparation in the Transition to Democracy** Jon Elster,2006-05-08 The contributions in this volume offer a comprehensive analysis of transitional justice from 1945 to the present They focus on retribution against the leaders and agents of the autocratic

regime preceding the democratic transition and on reparation to its victims Part I contains general theoretical discussions of retribution and reparation The essays in Part II survey transitional justice in the wake of World War II covering Austria Belgium Denmark France Germany Hungary the Netherlands and Norway In Part III the contributors discuss more recent transitions in Argentina Chile Eastern Europe the former German Democratic Republic and South Africa including a chapter on the reparation of injustice in some of these transitions The editor provides a general introduction brief introductions to each part and a conclusion that looks beyond regime transitions to broader issues of rectifying historical injustice

Sexual Treason in Germany during the First World War Lisa M. Todd, 2017-04-29 This book is the first comprehensive study of sexual lives in Germany and occupied Europe during the First World War Reconsidering sex in war brings to life a whole cast of characters too often left out of the historical narrative widowed women who worked as prostitutes fresh faced recruits who experienced the war in a VD hospital eugenicists who conflated sex and national decline soldiers wives ostracized by neighbourhood rumour mills By considering the confluence of public discourse state policy and everyday life Lisa M Todd adds to the growing body of knowledge on war and society in the twentieth century By incorporating the 1914 1918 experience into the longer frame of the pre war sex reform movement and the post war Allied occupation of the Rhineland this book is able to more fully evaluate the impact of the war years on the history of intimate relations in early twentieth century Germany

War, Massacre, and Recovery in Central Italy, 1943-1948 Victoria Belco, 2010-01-01 The Second World War wreaked unprecedented devastation throughout Europe necessitating monumental reconstruction efforts that burdened not only governments but the lives of ordinary citizens War Massacre and Recovery in Central Italy 1943 1948 examines this transitional period in the province of Arezzo by detailing the daily experiences of civilians through the traumas of war and the difficulties of recovery Studying the aftermath of war in a new and insightful way Victoria C Belco shifts the perspective from the national to the local level With this localized focus she provides valuable insight into the ways in which civilians coped with an overwhelming range of problems from adjusting to Allied occupation and widespread displacement to rampant unemployment and the restructuring of local administrations and institutions after fascism Recreating the post war atmosphere of disorder need and political upheaval Belco shows how the competing community interests caused social fragmentations that impeded change while the unity of a shared past prevented civil war

In Plain Sight Gaby Zipfel, Kirsten Campbell, Regina Mühlhäuser, (eds.), 2019-12-10 In the mid 1970s at the peak of the women s movement feminist activism and research opened the door to questions that are still pressing today While sexual violence has gained public awareness and become a subject in academic debate efforts to understand and strategies to prevent this form of violence remain inadequate Who are the perpetrators How is sexual violence tied to other forms of violence What are the consequences for individual victims and societies Compiled by the International Research Group Sexual Violence in Armed Conflict SVAC this volume takes an interdisciplinary approach to understanding wartime sexual violence Its enquiry employs

four key relationships War Power Violence Sexuality Gender Engendering and Visibility Invisibility Through these the authors identify gaps in existing knowledge to develop a deeper and more nuanced understanding of the field This volume is the result of long standing cooperation The International Research Group Sexual Violence in Armed Conflict SVAC is a network of interdisciplinary scholars and NGO experts founded in October 2010 Sociologists philosophers historians literary and legal scholars as well as NGO professionals from Europe the US Asia and Africa bring together empirical and theoretical studies focusing on sexual violence in different theatres of armed conflict The group compares source material and promotes the systematic development of research questions and methods

Occupied Aviel Roshwald, 2023-04-27 For most of the population of Europe and East and Southeast Asia the most persistent and significant aspect of their experience of the Second World War was that of occupation by one or more of the Axis powers In this ambitious and wide ranging study Aviel Roshwald brings us the first single authored comparative treatment of European and Asian responses to German and Japanese occupation during the war He illustrates how patriotic ethno national and internationalist identities were manipulated exploited reconstructed and reinvented as a result of the wholesale dismantling of states and redrawing of borders Using eleven case studies from across the two continents he examines how behavioral choices around collaboration and resistance were conditioned by existing identities or loyalties as well as by short term cost benefit calculations opportunism or coercion
