Paris Metro Tales Helen Constantine, 2011-03-24 Following on from Helen Constantine's hugely successful Paris Tales the twenty two short stories included in More Metro Tales take the reader on an fascinating journey around Paris by metro The journey begins at the Gare du Nord stops at twenty underground stations along the way and ends at Lamarck Caulaincourt Some of these stories actually take place in the metro itself but most are to be found when you emerge above ground They range from the 15th century account of the miraculous Saint Genevieve patron saint of Paris through tales by favourite writers such as Zola Simenon and Maupassant to Martine Delerm's evocation of the last hours of Modigliani's mistress Jeanne H buterne G rard de Nerval evokes the thriving bustling market in Les Halles in the 1850s Colette recounts her involvement in a traffic accident near the Op ra Boulanger describes a blackly funny experience in P re Lachaise Each story is illustrated with a black and white photograph and there is a map and suggested itinerary round the metro system Readers will find familiar and unfamiliar writers here but all are masterly writers of the short story and each evokes a different aspect of this endlessly intriguing and much loved city whether the traveller is on the metro or at home sitting in an armchair

Paris Tales, 2004-09-09 Paris Tales is a highly evocative collection of stories by French and Francophone writers who have been inspired by specific locations in this most visited of capital cities The twenty two stories by well known writers including Nerval Maupassant Colette and Echenoz provide a captivating glimpse into Parisian life from the mid nineteenth century to the present day The stories take us on an atmospheric tour of the arrondissements and quartiers of Paris charting the changing nature of the city and its inhabitants and viewing it through the eyes of characters such as the provincial lawyer's wife seeking excitement a runaway schoolboy sleeping rough and a lottery winning policeman From the artists haunts of Montmartre to the glamorous caf s of Saint Germain from the shouts of demonstrators on Boul Mich to the tranquillity of Parc Monceau Paris Tales offers a fascinating literary panorama of Paris Illustrated with maps and striking photographs the book will appeal to all those who wish to uncover the true heart of this seductive city

Language Typology Alice Caffarel, J. R. Martin, Christian M. I. M. Matthiessen, 2004 This book is intended as a systemic functional contribution to language typology both for those who would like to understand and describe particular languages against the background of generalizations about a wide range of languages and also for those who would like to develop typological accounts that are based on and embody descriptions of the systems of particular languages rather than isolated constructions The book is a unique contribution in at least two respects On the one hand it is the first book based on systemic functional theory that is specifically concerned with language typology On the other hand the book

combines the particular with the general in the description of languages it presents comparable sketches of particular languages while at the same time identifying generalizations based on the languages described here as well as on other languages The volume explores eight languages covering seven language families French German Pitjantjatjara Tagalog Telugu Vietnamese Chinese and Japanese Corpus Linguistics for Translation and Contrastive Studies Mikhail Mikhailov, Robert Cooper, 2016-05-20 Corpus Linguistics for Translation and Contrastive Studies provides a clear and practical introduction to using corpora in these fields Giving special attention to parallel corpora which are collections of texts in two or more languages and demonstrating the potential benefits for multilingual corpus linguistics research to both translators and researchers this book explores the different types of parallel corpora available and shows how to use basic and advanced search procedures to analyse them explains how to compile a parallel corpus and discusses their uses for translation purposes and to research linguistic phenomena across languages demonstrates the use of corpus extracts across a wide range of texts including dictionaries novels by authors including Jane Austen and Mikhail Bulgakov and newspapers such as The Sunday Times is illustrated with case studies from a range of languages including Finnish Russian English and French Written by two experienced researchers and practitioners Corpus Linguistics for Translation and Contrastive Studies is essential reading for postgraduate students and researchers working within the area of translation and contrastive studies

A Systemic Functional Grammar of French Alice Caffarel-Cayron, 2006-06-27 The consistent interplay between theoretical and applied pursuits has always been a defining feature of systemic functional theory This kind of mutual enrichment is clearly demonstrated in Alice Caffarel's work The result is a description which penetrates to the heart of the language revealing it at one and the same time as a specimen of the human semiotic and a unique resource for the continuous creation of meaning Professor M A K Halliday from the Preface Short Stories in Italian Nick Roberts, 1999-09-30 This is an all new version of the popular PARALLEL TEXT series containing eight pieces of contemporary fiction in the original Italian and in English translation Including stories by Calvino Benni Sciascia and Levi this volume gives a fascinating insight into Italian culture and literature as well as providing an invaluable educational tool Reconnecting Language A. M. Simon-Vandenberg, Kristin Davidse, Dirk Noel, 1997-01-01 Although the contributors to this book do not belong to one particular school of linguistic theory they all share an interest in the external functions of language in society and in the relationship between these functions and internal linguistic phenomena In this sense they all take a functional approach to grammatical issues Apart from this common starting point the contributions share the aim of demonstrating the non autonomous nature of morphology and syntax and the inadequacy of linguistic models which deal with syntax morphology and lexicon in separate independent components The recurrent theme throughout the book is the inseparability of lexis and morphosyntax of structure and function of grammar and society The third and more specific common thread is case which in some contributions is adduced to illustrate the more general point of the link between word form on the one

hand and clausal and textual relations on the other hand while in other papers it is at the centre of the discussion The interest of the proposed volume consists in the fact that it brings together the views of leading scholars in functional linguistics of various denominations on the place of morphosyntax in linguistic theory The book provides convincing argumentation against a modular theory with autonomous levels the dominant framework in mainstream 20th century linguistics and is a plea for further research into the connections between the lexicogrammar and the linguistic and extralinguistic context

Paris Street Tales, 2016-08-17 Paris Street Tales is the third volume of a trilogy of translated stories set in Paris The previous two are Paris Tales in which each story is associated with one of the twenty arrondissements and Paris Metro Tales in which the twenty two stories are related to a trip round the Paris Metro This new volume contains eighteen newly translated stories related to particular streets in Paris and one newly written tale of the city The stories range from the nineteenth century to the present day and include tales by well known writers such as Colette Maupassant Didier Daeninckx and Simenon and less familiar names such as Francis Carco Aur lie Filipetti and Arnaud Baignot They present a vivid picture of Paris streets in a variety of literary styles and tones Simenon's Maigret is called upon to solve a mystery on the Boulevard Beaumarchais a fl neur learns some French history through second hand objects retrieved from the Seine a nineteenth century affair in the Rue de Miromesnil goes badly wrong a body is discovered on the steps of the smallest street in Paris Through these stories we see how the city has changed over the last two centuries and what has survived All the tales in the book are translated apart from the last a new story by David Constantine based on the last days of the poet Gerard de Nerval
