Business Administration for Students & Managers Lawrence Mensah Akwetey, 2011 In recent times there has been an unprecedented increase in awareness of environmental issues by businesses around the globe The extent to which this awareness has been created hinges significantly on the customer's perception of businesses' responses to environmental issues such as climate change global warming effects of business gas emissions on the ozone layer etc The growth of some businesses and indeed the whole industrial society has been based on the confidence reposed in human ingenuity and its ability to develop new technologies to meet human needs and more recently to solve the climate and environmental problems brought about by previous technological developments particularly those used by businesses and giant industrial houses In essence the question that all the above brings to the fore is should the approach of businesses to these objectives of continued and sustainable growth be at the expense of our climate or the environment One of the primary reasons why businesses use more nuclear power plants for their energy supplies today is to combat global warming and climate change as nuclear power is said to be relatively free of carbon emissions Business Administration for Students Managers covers various topics traversing eight major subject areas in Business Administration including The International Business Environment Human Resource Management Financial Management and Marketing Management Managing Operations and Information Communication Technology Business Process Reengineering and Logistics Supply Chain Management This approach is intended to bring together for the benefit of all students and managers of businesses all the major business topics functions under one umbrella Business Administration for Students Managers is intended for the first international business courses of study at both the undergraduate and the Master of Business Administration MBA levels It holds the key to the efficient business or management remit of business personnel such as Chief Executive Officers Managing Directors General
