We already know that SAP stands for Systems, Applications & Products in Data Processing. In SAP FICO, FI stands for (Financial Accounting) and CO stands for (Controlling). To understand the concept well, we can divide the SAP FICO into two parts: SAP FI and SAP CO. The SAP FI takes care of accounting, preparation of financial statements, tax computations, etc. On the other hand, SAP CO takes care of inner orders, cost sheets, inventory sheets, cost allocations, etc.

SAP FICO is the software that stores data, and also computes them, and retrieves the result according to the current marketing scenario. It is responsible for preventing data loss and also does the verification and reporting of data.
