War in the Shallows John Darrell Sherwood, 2015 War in the

Shallows published in 2015 by the Naval History and Heritage Command is the authoritative account of the U S Navy's hard fought battle along Vietnam's rivers and coastline from 1965-1968. At the height of the U S Navy's involvement in the Vietnam War, the Navy's coastal and riverine forces included more than 30,000 Sailors and over 350 patrol vessels ranging in size from riverboats to destroyers. These forces developed the most extensive maritime blockade in modern naval history and fought pitched battles against Viet Cong units in the Mekong Delta and elsewhere. War in the Shallows explores the operations of the Navy's three inshore task forces from 1965 to 1968. It also delves into other themes such as basing, technology, tactics, and command and control. Finally, using oral history interviews, it reconstructs deckplate life in South Vietnam, focusing in particular on combat waged by ordinary Sailors. Vietnam was the bloodiest war in recent naval history, and War in the Shallows strives above all else to provide insight into the men who fought it and honor their service and sacrifice. Illustrated throughout with photographs and maps, Author John Darrell Sherwood has served as a historian with the Naval History and Heritage Command (NHHC) since 1997. Provided by publisher

Stage Management Daniel Bond, 1998. This popular book describes in detail a stage manager's job. It provides students, those just starting out in the profession, and amateurs with a solid grounding in theatre stage management practices and procedures. The disciplines of lighting, set design, and sound are discussed, but the book's main concern is with the management of these elements and with the processes and scheduling that go together to provide the effective results. The author demonstrates that the methods used are as important as the final result. Chronologically following the production of a play, the book starts with pre-production planning and progresses to the first night.
