Coleman, 2016-08-17 Natural and environmental hazards research comprises a diverse set of subjects and methodologies and this book is no exception offering the reader only a small glimpse into the physical and social processes that threaten human interests Atmospheric Hazards Case Studies in Modeling Communication and Societal Impacts explores atmospheric based hazards through focused investigations ranging from a local to global perspective Within this short compendium the major scales of atmospheric motion are well represented with topics on microscale turbulent transport of pollutants mesoscale events stemming from thunderstorm complexes and synoptic scale extreme precipitation episodes Chapters include discussions on modeling aspects for investigating hazards pollution regional climate models and the forecasting and structure of high wind events derechos whereas others delve into hazard communication preparedness and social vulnerability issues tornadoes hurricanes and lightning Although the chapters are quite disparate upon first inspection the topics are united through their interweaving of both the physical and societal mechanisms that create the atmospheric hazard and eventual disaster      **Minding the Weather** Robert R. Hoffman, Daphne S. Ladue, H. Michael Mogil, Paul J. Roebber, J. Gregory Trafton, 2023-08-15 A detailed study of research on the psychology of expertise in weather forecasting drawing on findings in cognitive science meteorology and computer science This book argues that the human cognition system is the least understood yet probably most important component of forecasting accuracy Minding the Weather investigates how people acquire massive and highly organized knowledge and develop the reasoning skills and strategies that enable them to achieve the highest levels of performance The authors consider such topics as the forecasting workplace atmospheric scientists descriptions of their reasoning strategies the nature of expertise forecaster knowledge perceptual skills and reasoning and expert systems designed to imitate forecaster reasoning Drawing on research in cognitive science meteorology and computer science the authors argue that forecasting involves an interdependence of humans and technologies Human expertise will always be necessary      *Severe and Hazardous Weather* Robert Rauber, John Walsh, Donna Charlevoix, 2022-03-30 Provides current relevant and scientifically accurate discussions of all types of hazardous weather This fifth edition has been updated to reflect new scientific findings as well as recent major weather events including floods drought and heat waves      **International Encyclopedia of Geography, 15 Volume Set** Noel
